Your policies sorted! Policy and document bank

Juniper's statutory Policy and Document Bank for schools and trusts provide you with up-to-date model policies and templates across all areas of statutory compliance (and broader). Regular proactive updates on changes to legislation and a policy tracker so that you can keep on top of your deadlines and revisions.

Our complete statutory policy package includes:

- A statutory policy tracker that you can use to self-audit and then monitor reviews, renewals, and approvals of all statutory policies required by the legislation relevant to your setting.
- A set of over 50 model policies with guidance on how they can be easily tailored to your setting. This includes models for all statutory policies including HR policies, health and safety policies, financial procedures, data protection policies, and teaching and learning policies and procedures.
- Access to Juniper's regular specialist blogs and webinars to provide your team with practical interpretations of new issues arising in education and activities that you will be undertaking at that time.
- Proactive email alerts to let you know when there is a change to legislation that may affect your school or trust's policies.
- Access to our education-specific statutory deadlines checklist that you can use to keep your team on track.
