

Where would you place your organisation?

Our TBM offering covers the full spectrum of maturity, enhancing TBM coverage, TBM value, or both. This graph illustrates how our services compliment one another and may give you an idea of which service may be right for your organisation. Turn over for more info on each service.

TBM Configuration Enablement

With or without a CMDB, StrataPrime consolidates operational data into one space, providing a single system of record. We manage end-to-end config from data gathering & allocations, through to validation, custom reports and implementing a robust runbook to ensure vision and targets are met.

TBM-as-a-Service

We will run your TBMO for you, making use of our expertise, robust runbook and process design. Choose from three packages: Essential (data), Business (reporting), and Premium (actionable insights).

TBM+

Driving TBM actionable insights through to P&L cost reduction and accelerated transformational change.

Trusted Advisor

Gain access to StrataPrime's associate network of SMEs and consultants, providing insight and impartial view, proven project delivery and oversight.

TBM Accelerator - Seven Cost Levers

In an 8-week self-funding engagement, StrataPrime cost optimisation experts work across seven workstreams in which data is captured and analysed through a unique lens to uncover improvement opportunities and deliver tangible business cases.

TBM User Enablement

Embedding the planning, tooling and workflow, we help you communicate your TBM message across the organisation and enable users to extract full value from TBM.

TBM Custom Dashboards

Focusing on the challenges, stories and value, custom dashboards are pivotal in:

- ▶ Communicating answers to complex questions in an interactive, easy and compelling manner.
- ▶ Driving confidence and understanding of the TBM model and approach.
- ▶ Enabling users to interact and use TBM at all levels and scenarios within the IT supply chain.
