DURABRUSH

🇬🇧 Brushes and Wheels for Printing Presses

🇪🇸 Brochas y Ruedas para Printing Presses

🇬🇧 The DURABRUSH range of Brushes and Wheels have been specifically developed for many offset press sheet feeder and sheet steadier systems.

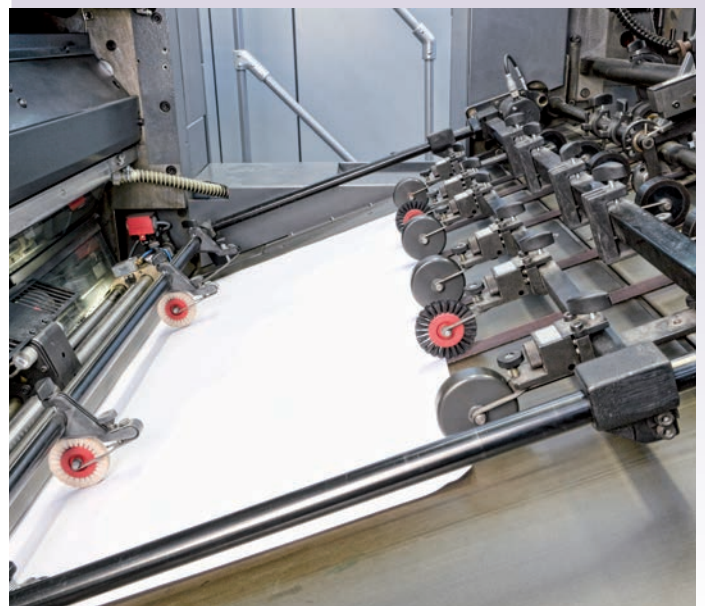

🇪🇸 La gama de Brochas y Ruedas DURABRUSH se han desarrollado específicamente para muchos tipos diferentes de sistemas alimentadores de prensa.

🇬🇧 APPLICATION & RANGE

- The DURABRUSH range has 3 applications:
 1. Brush Wheels for the feeder section used to ensure smooth transportation of the paper sheet across the feed board section.
 2. Sheet Steadier Brushes used to hold down the paper sheet before it is lifted into the feeder section by the suction cup.
 3. Feeder Wheels
 - Complimentary to the Brush Wheel, Feeder Wheels are produced in high quality rubber material.
 - Soft and hard quality to suit the type of paper or card.

QUALITY

- The DURABRUSH range is manufactured using the highest quality materials in both natural and synthetic fibres.
- Many of the brushes in the DURABRUSH range are made to the specification of OEM and all types take this into account in product design.
- Specific natural and synthetic brush fibres are selected to suit the brush application whether for use with paper or board, and on feeder or hold down applications.

AVAILABILITY

- Feeder Wheels are available to suit the the following press makes:
- Heidelberg, Komori, Man Roland, Mitsubishi, Fuji Shinohara , Bobst Die Cutter, KBA Planeta, Miller, Oliver Sakurai.
- Sheet Steadier or “Hold Down” Brushes are available for use on an extensive range of press makes (see above - feeder wheels).
- Brushes not shown may be produced to order, to meet the specification required.

🇪🇸 APLICACION & GAMA

- El rango de Brochas y Ruedas DURABRUSH tiene 3 aplicaciones:

1. Cepillos circulares, para garantizar un correcto transporte del papel en los sistemas de alimentación de prensa.

2. Cepillos planos, utilizados para sujetar la hoja de papel antes de que se sea succionada por la ventosa del sistema de alimentación.

3. Ruedas alimentadoras.
- Producto complementario al cepillo, las ruedas de alimentación están fabricadas en goma de alta calidad.
 - Fabricadas en goma blanda y dura para adaptarse a todo tipo de papel o cartón.

CALIDAD

- El rango de Brochas DURABRUSH se ha fabricado con materiales de primera calidad, tanto en fibras naturales como sintéticas.

- Muchos de los cepillos del rango DURABRUSH se fabrican siguiendo la especificación de técnica OEM del fabricante de maquinaria, teniendo en cuenta estas consideraciones para el diseño de otros tipos.

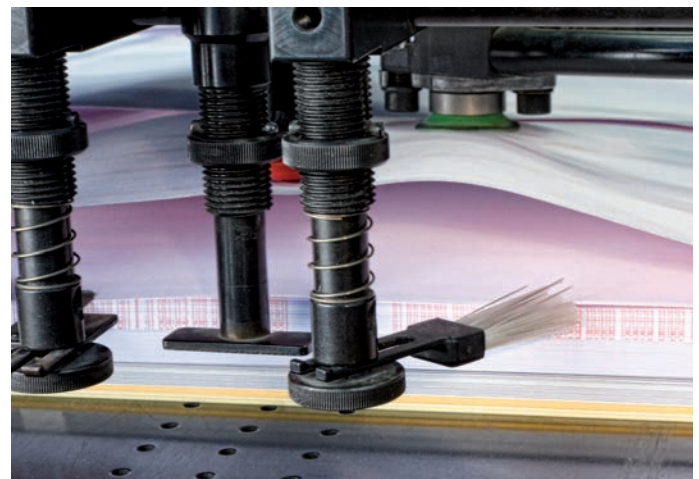

- En fibras naturales y sintéticas seleccionadas para adaptarse a cualquier aplicación ya sea para su uso con papel o cartón, o como alimentadoras o separadoras de hoja.

DISPONIBILIDAD

- Tanto las ruedas de alimentación, como los cepillos planos, están disponibles para las siguientes marcas:

Heidelberg, Komori, Man Roland, Mitsubishi, Fuji Shinohara,
Troqueladora Bobst, KBA Planeta, Miller, Oliver Sakurai.

- Las brochas que no se muestran en este catalogo, pueden ser fabricados bajo pedido.
