

A vacancy has arisen for an additional experienced land and building surveyor to join our well established and expanding multi-disciplinary RIBA Chartered Practice. Producing measured surveys in support of a team of architects, technologists, planning advisors or directly for a variety of clients you will be responsible for and have knowledge/ experience of the following:

- After the initial client meeting and brief by the project architect or director covering the requirements of project, producing a fee proposal relative to the size, scope and detail required and economic use of manpower.
- Upon acceptance of the fee proposal, programming the work to be undertaken having regard to the project programme and office workload.
- Conducting measured topographical and building surveys using LEICA total station. Where necessary, hand measuring methods will be used with supporting sketch details, especially when undertaking work to listed buildings.
- Production of survey drawings to the requirements of the project architect, using AutoCAD software.
- Download and amend as necessary OS Maps to accompany the survey.

Other related activities may include

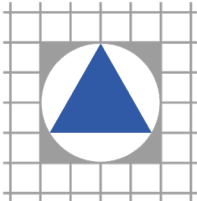

- Setting out outline of buildings or required information on site.
- Monitoring 'tell tales' following insertion by others.
- Conversion/adaption of survey information by others on differing software.

You must have a high level of working knowledge/ experience in the application of AutoCAD, Sketchup and Photoshop plus Microsoft Word and Excel. A working knowledge of Revit, whilst not essential, would be an advantage.

Our current survey workload and recent experience includes the following:

- Topographical survey of an abandoned railway tunnel and cuttings
- Topographical and building survey relating to canal environment
- Building surveys for extensions to Grade I and II Listed Buildings
- Topographical survey of industrial site
- Topographical survey for design and construction of lake in rural setting
- Topographical survey of site for proposed paragraph 79 dwelling
- Building survey of derelict agricultural buildings for conversion
- Topographical and building survey, sports facility

The post is ideal for a surveyor wishing to gain further experience by joining a successful well established practice, working with a highly motivated team in a friendly rural office environment.
