**IMPORTERS • DISTRIBUTORS • EXPORTERS**  
*First choice for quality, design, range, prices and service*

# Welcome... to our 2020 product range

Ark Toys are committed to providing our customers with a product that is of the highest quality and complies with all regulations set out by governing bodies across a broad spectrum.

## ECO Friendly... From small acorns...

Over several years Ark Toys have been conscious of their impact on the environment. We started small by reducing our plastic packaging e.g. plush no longer in individual bags. We no longer import single use plastic tubs, tubes or packets. We have reduced the use of paper in our offices by 80%... Help us reduce this even more by sending us the information so as we can email your invoice rather than print them out popping them in an envelope and posting them. Our packing boxes are all made from recycled paper.

**Our catalogue is 100% recyclable as are our swing tags. Our range of MS plush toys are 100% recyclable. Our K range of plush toys are made up of recycled components.**

## Safety;

We ensure that all our products comply with the stringent toy safety regulations that are in place. We use the services of an independent toy safety consultant. This provides us with up to date information on toy safety, ensuring that all our products meet the safety regulations required.

## Ethical Commitment;

**We operate a strict ethical policy with our suppliers. We ensure we visit the supplier's factories and offices on a regular basis.**

Working conditions are of an acceptable standard, safe and hygienic.

Employment is freely chosen.

No child labour is used.

No harsh or inhumane treatment.

Working hours are not excessive.

Living wages are paid.
