

PHMedia hold a database of colour profiles for all major magazines assuring you of the best possible representation prior to print. Let us manage the

application of colour profiles for specific stocks and media. Our online systems give you the client the ability to access, comment, and remotely

approve layouts and print-ready files. Ensuring full control over your advertising campaign from layout to final artwork. Event notifications and

emails with updates on workflow status allow you to track all of our processes to press including shipment of material across the world.
