Features & Benefits:

- Specifically designed to provide a demarcation area around sports pitches
- Provides protection for players and supporters during game play
- Designed to provide spectators better viewing
- Manufactured from strong tubular section
- Available with gates to suit
- Available either bolt down, in ground or on wall
- Adheres to FA guidelines
- Supplied with no infill

Description:

Zaun **Spectator Rails** improve safety for both players and spectators. The players feel that the game is played at a higher level and that there is less likely to be any incursion on the pitch by eager fans. **Spectator railings** are manufactured to the highest quality from strong tubular section with stylish fixings to hold the horizontal rails.

We can design any number of gates of any size into the pitch perimeter to allow maintenance equipment unfettered access to the pitch. The Football Association has made **spectator rails** a requirement for many Non-League clubs, but Zaun's **Spectator Railings** are also suitable for areas such as skate parks, where spectators on the playing surface would pose a safety hazard.

Details:

Minimum height of 1 metre to maximum height of 1.2 metres – Spectator Railings

Mesh:

None

Posts:

60mm x 60mm RHS post section, spaced at 2525mm centres

Post to panel fixing:

None

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm SHS with Zaun Duo8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm SHS, with Zaun Duo8 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and Polyester Powder coated.
