

## Till Roll Sizing Guide

To Measure your till rolls, first measure the width of the roll against the measures below, then insert the roll into the correct circle to obtain the second measurement,

For example: Step one - place roll on black bars to find a match, ie: **57mm**

Step two - place the roll in the nearest size circle, ie: **38mm**

*The Size required is **57mm x 38mm**.*
