

Storage and distribution of heavy loads (ref. 26R10 and 26R28).

Integrates with all robot handling systems.

Modular and flexible: inter-stacks with VDA and Odette containers.

Versatile distribution

Standardised logistics

- Integrates with all robot handling systems
- Smooth or reinforced base compatible with all types of conveyors, carousels and mini-load systems
- Safely carries unit loads up to 50Kg (reinforced base models), a stacked load of up to one tonne on the bottom container
- Dimensions compatible with standard Euro pallet sizes

Identification and traceability

- Pimple-pads, on all four sides and on lids, allow the removal of adhesive labels without leaving a sticky residue
- Clip-on label holders can be fitted to all four sides (ref. 26006 can be fitted with label holder ref. OPE26 on one long side only)
- **ALLtag system** radio-frequency tags available for all models

Notches in lid allow banding for secure distribution.

Hand-held fitted with optional non-slip 'elastomer' insert for operator comfort and safety.

R.F. Tags can be moulded into containers at manufacture. Operating at 13.56 MHz, both read-only and read-write tags are available.
