

Environmental Policy

Falcon Precision is committed to minimising the impact of its activities on the environment and to continually improving our environmental performance.

The key points of its strategy to achieve this are:

- Meet or exceed all environmental legislation and codes of practice that relate to the Company
- Integrate the consideration of environmental concerns and impacts into all of our decision making and activities
- Promote efficient use of materials and resources throughout the Company including water, electricity, raw materials and other resources, particularly those that are non-renewable
- Minimise waste by employing efficient manufacturing methods
- Actively promote recycling both internally and amongst its customers and suppliers.
- Operate and maintain company vehicles with due regard to the environment
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner
- Continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities

This policy is itself kept under continuous review.
