

## Spare Parts for Ga-Vehren Equipment

Does your Ga-Vehren system still require the occasional spare part?

Last year, we found a source for Ga-Vehren spares: an engineer in St Louis who previously worked for Ga-Vehren and has set up his own business designing and manufacturing spare parts and machinery. We're relieved to have found Ron as customers have been experiencing difficulty getting parts for older machines. Ron can manufacture one-off parts now deemed "obsolete", saving our customers the trouble of taking a worn-out part to their local machine shop to be reconstructed.

If you have any requirements for Ga-Vehren spares, please give us a call or contact us using the details below.

Kind regards,  
Lindsay.
