Fastens to chair leg
for added security

Seat Pad with
Non-Skid Surface

The Bassoon Seat Strap

BASSOON SEAT STRAP

The comfortable alternative to playing bassoon with a traditional neck strap!

The Neotech **Bassoon Seat Strap** is the ideal way to add comfort when playing long sessions in the rehearsal room or performances in the concert hall. For the musician who wants relief from supporting the weight of the instrument around the neck, the Bassoon Seat Strap is the answer!

It provides additional support while offering the musician increased freedom of movement. It features a durable nylon-reinforced neoprene cup which snugly captures the end of the bassoon. This is then attached to a webbing strap that adjusts to fit any playing style. The strap also incorporates a non-skid neoprene pad which helps to secure the strap in position on the chair. A quick disconnect system makes attaching the strap to the chair leg quick and easy. It is an ideal alternative to the traditional neck strap and offers not only comfort but peace of mind that the instrument is secured.

The **Bassoon Seat Strap** is very compact. When not in use, it easily fits in the storage compartment of the instrument case. It can be hand washed in mild detergent and laid flat to dry.

Give your neck a rest today with Neotech's **Bassoon Seat Strap!**

Neotech continues to innovate quality products to meet the ever-changing needs of the avid musician.
