# WCCTV Redeployable CCTV

**WCCTV is the UK's most established and experienced provider of 4G enabled redeployable CCTV cameras specifically designed to support a range of police and local authority surveillance applications.**

We help our customers deliver real results (prosecutions, reduced crime and improved neighbourhood safety) by providing the highest quality technology backed by our world-class customer support services.

## WCCTV 4G IR Speed Domes

WCCTV's 4G IR Speed Domes are a range of redeployable CCTV cameras that utilise 4G mobile transmission to deliver live and recorded high definition images.

They are rapid deployment portable surveillance systems that combine an infrared PTZ camera, local recording capacity (up to 4TB) and 4G transmission technology into a single unit that can be quickly mounted to a lamp post or building. They are easily moved if your monitoring requirements change.

They contain inbuilt video analytics and auto-tracking functionality that provide intelligent and automated surveillance.

All the units feature three additional input channels, allowing the addition of secondary cameras and accessories.

### Features and Benefits

- Portable redeployable cameras
- Rapid deployment - target crime hotspots and move when needed
- Multiple camera head options
- HD images (up to 1080p) delivered over mobile networks
- Lightweight and compact units
- ONVIF compatible
- Remote control, configuration and commissioning
- Remote power cycle option
- Overt and covert variant systems
- Solar option available
- Three additional input channels

## WCCTV 4G Panoramic Dome

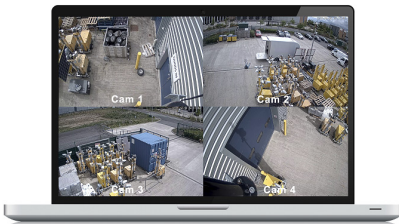

The WCCTV 4G Panoramic Dome is a redeployable CCTV system that delivers multidirectional video surveillance via mobile transmission (4G/3G).

Driven by an increasing demand for remote monitoring of road junctions and public spaces, the system features a 2MP IR PTZ camera plus three panoramic lenses to provide four separate directional views from just one device.

Users get the functionality of four cameras but with just one unit to install, one cable to draw and one IP address. All helping to minimise installation time, maintenance and transmission costs.

### Features and Benefits

- Multidirectional redeployable CCTV
- 4-in-1 camera capability
- 2MP IR PTZ camera and three panoramic lenses

## WCCTV 4G MultiCam Dome

The WCCTV 4G MultiCam Dome is a redeployable CCTV camera that delivers multidirectional video surveillance utilising 4G video transmission technology.

The system features an 8MP multi-sensor camera that provides the user with four different videos streams with just one unit to install, one cable to draw and one IP address, helping to minimise installation, maintenance and transmission costs.

### Features and Benefits

- Multidirectional CCTV system - four views from one device
- Flexible positioning of four varifocal camera heads
- 360° IR illumination, remote zoom and focus

## WCCTV 4G Covert Dome

The WCCTV Covert Mini Dome is a redeployable CCTV system designed to discreetly blend into its environment and deliver live and recorded video via 4G/3G connectivity.

As an all-in-one rapid deployment surveillance solution, the Covert Mini Dome combines an HD PTZ camera, 4TB local recording capacity and 4G transmission technology into a covert housing designed to look like an electrical junction box.

### Features and Benefits

- Covert redeployable CCTV system
- Easy to install and fully portable
- High definition video (up to 720p)
- Low power usage

## WCCTV 4G IR Speed Dome and ANPR

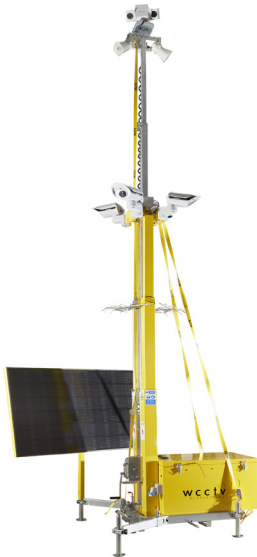

The WCCTV 4G IR Speed Dome integrated with a specialised Automatic Number Plate Recognition camera captures and stores images of number plates and converts them into a text database that shows the number plate, date and time stamp and the direction of travel.

The database can be accessed and downloaded remotely over 4G connectivity, providing full statistical analysis and/or allowing the searching of a number plate or activity during a specific time period.

### Features and Benefits

- High speed, high accuracy number plate recognition
- Snapshot images converted and stored to database
- Full day/night and all weather conditions operation

## WCCTV Rapid Deployment Towers

WCCTV's rapid-deployment CCTV Towers are specifically designed to provide all-in-one security.

At 7m tall, WCCTV's Site Towers provide a highly-visible deterrent that help to prevent trespass and intrusions on to sites, and as truly rapid-deployment security solutions they can be installed and fully operational in a matter of minutes.

WCCTV's Site Towers combine wireless transmission of video and alarms (via 4G/3G or Wi-Fi), a high definition 360° infrared PTZ camera to allow a remote operator to capture images, audio speakers to enable a remote challenge to occur and local recording capability for the storage of evidential footage.

Its flexible methods of powering make it suitable for deployment in even the most remote locations. Powering options include:

- Mains - 110/240v
- Eco long-run 150hr battery
- Methanol fuel cell - autonomous power for up to 10 weeks
- Renewable sources (wind/solar)

## WCCTV Body Worn Video Cameras

WCCTV's Body Worn Cameras lead the market in terms of features and functionality, technical capability and ease of use for the wearer and video manger.

WCCTV's range of body worn cameras include the WCCTV Body Worn Camera (Connect) and the WCCTV Body Worn Camera (Record). The WCCTV Body Worn Camera (Connect) is a multi-award-winning body worn camera offering live transmission of video, audio, real-time alerts and GPS information via 4G/3G and Wi-Fi connectivity.

Unlike other live transmission body worn camera systems, the WCCTV Body Worn Camera (Record) captures audio and video on the move. They have High Definition playback and all footage is date, time and GPS location stamped - this ensures the evidential integrity of all footage recorded.

# WCCTV Service and Support

At WCCTV, we understand that each unique deployment of Redeployable CCTV cameras has different objectives, challenges and requirements.

That's why we have invested not just in world-leading technology, but also in the support services that enable our clients to effectively deploy their systems, get the results they desire and make their lives easier.

## Services we provide include

- Designated Account Manager to Support Your Team
- Dedicated Support Team Available via Phone or Email
- Training on Demand for New or Infrequent Users
- Remote Commissioning
- Network Configuration
- Cell Site Evaluations
- Ongoing Remote Heartbeat Diagnostics
- Remote Power Reboots

WCCTV has offices in Greater Manchester, Edinburgh, Luton and Newport. To find out more about WCCTV's Public Sector CCTV or to arrange a free trial please contact our UK Head Office:
