Sailing in Annapolis: TWO SCHOONERS, ONE GREAT EXPERIENCE

COME SAIL AWAY AND HELP HOIST THE SAILS OR TAKE A TURN AT THE WHEEL!

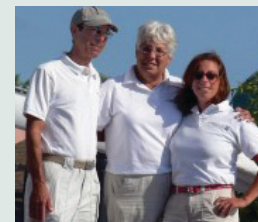

Annapolis is "America's Sailing Capital" in the heart of the Chesapeake. A trip to the area would not be complete without a sailing cruise of the Annapolis harbor and through the surrounding Bay. Experience the joy of sailing on our splendid yachts, WOODWIND and WOODWIND II.

Each and every trip is unique. As we head underway, you are sure to get a waterfront tour of the Naval Academy, the scenic Severn River, Spa Creek and other points of interest. Great blue herons and ospreys can often be spotted while sailing.

Both boats were custom designed and built specifically for sailing on the Chesapeake Bay and are replicas of the classic fast wooden schooners that were built as "yachts" in the early part of the twentieth century. Their handsome wooden decks, mahogany brightwork, and roomy cockpit distinguish them from cargo carrying work vessels.

ALL IN THE FAMILY

Captain Ken and Ellen Kaye, owners of the WOODWINDS, decided to retire early after 25 years of teaching in public schools. After their daughter, Jennifer, returned from a semester at sea aboard a 125' schooner, the family pursued their dream of owning a yacht to introduce people to sailing. In 1993, they had a handsome vessel custom designed and built based on their 20 years of sailing experience. An identical sister boat, WOODWIND II, was later added to the family in 1998.

The extended family of captains and crew members are chosen for their sailing knowledge, friendliness and enthusiasm. These are the qualities that will make your onboard experience a special one.

"Most schooners need half a gale to get moving, not this one. WOODWIND was designed specifically for light air and she sails amazingly well..."
— Cy Liberman, Boating Writer
