

SPECIALIZED IN DIESEL ENGINE SPARE PARTS SINCE 1923

www.vanwest-holland.com

Our strength

“Our strength lies particularly in keeping a large number of parts in stock, for main engines we keep in stock new and reconditioned Pistons, Piston crowns, Skirts, Exhaust Valves and Cylinder Covers”

“a large number of parts in stock”

Introduction

Van West - Holland B.V. IJmuiden - The Netherlands

Since 1923 we are supplying Diesel Engine Spare Parts to the shipping world. Economical and with high quality from our location close to the locks of IJmuiden, having direct access to the main ports in Europe and the world by road, sea and air. Our strength lies particularly in keeping a large number of New and Reconditioned Engine Spare Parts in stock directly available and also to have the facilities to recondition your spare parts on a short notice.

We are focused mainly on large bore two stroke engine spare parts such as, Piston -crowns, -skirts, -rods, Exhaust valves, Cylinder Covers and Cylinder Liners. We are a large stockist of cylinder liners in the range of, medium and slow speed, 400mm up to 980mm in bore. All from well known engine makers, produced in Russia. We also keep in stock a large number of turbo charger casings and crankshafts for auxiliary engines. For more than 80 years we have been reconditioning damaged or worn out components of marine and power diesel engines. We are a marine and industrial repair company backed by an engineering staff, with sophisticated workshop facilities.

Our workshop and stores in IJmuiden are situated on a total of 4200 square meters. This year our new warehouse will be completed offering a new growth of our stock range and numbers. So we can offer our customers an even bigger service!

Please also visit our website www.vanwest-holland.com to broaden your ideas of the possibilities with us.

Cylinder liners

All from well known engine makers

“We are stoking NEW and Slightly used liners, in the range of medium speed and slow speed, 400mm up to 980mm diameter. All from well known engine makers. Produced in Russia.”

Our stock

reconditioned exchange components as a cost-effective alternative...

To meet the demands of our customers, effectively and economically we keep in stock parts for engines all from well known engine makers. Our warehouse of 3000 square metres where we keep our products ready for shipment. Van West - Holland offers reconditioned exchange components as a cost-effective alternative for our customers.

With our strong customer oriented approach, giving technical support to our customer with obtaining critical parts from our large stock, and having the ability to mobilize closely connected freight forwarding resources worldwide. Making on-time deliveries to your vessels. Making us dare to say "We are Van West, the problem solvers in the West"

Your request will get our immediate attention, 24 hours a day, 7 days a week. Please do not hesitate to pass us your inquiries so we can assist you.

Reconditioning

Giving a second life to your used and worn parts

Van West - Holland B.V. Since 1923 a name recognized worldwide in the field of marine engineering. We have been reconditioning engine spare parts for years in our own machine workshop. Building up broad technical knowledge. Specializing in the reconditioning of pistons crowns, cylinder covers, piston rods, connecting rods and exhaust valve houses. Giving a second life to your used and worn parts. Our in house quality system is based on the ISO 9002. Which means mainly that every product which enters our workshop and leaves our workshop has a detailed report of which procedures haven been undertaken. Tight production control and step-by-step monitoring of reconditioning processes ensure that we deliver a product that can again withstand the harsh environment in operation on board. All our welders are issued Lloyd's certified every year. At our works we normally issue our products with Lloyd's Register of Shipping classification certificates. Of course it is possible if requested by our customer to issue classification certificates of the other Bureau's as Norske Veritas, American Bureau of Shipping, German Lloyd's, Nippon Kaiji Kyoklai or Burea Veritas.

Our service

Parts - deliveries - modifications- storage - contacts

- Main parts for engine designs from 1956 till present
- Spare Parts packed and ready to go
- 20 minutes from airport Schiphol - Amsterdam
- Express deliveries
- Machine capacities for modifying changes of design
- Economical storage facilities, 4000 kg, up to 5 metre height

Close contacts :

- for grinding of crankshafts
- for fuel pump blocks / injectors / cams / bearings
