

# Safeguarding Solutions

## eLearning

Deliver bespoke eLearning courses with this flexible platform. Through integrating with our Events and Training system, bookings, learning history, resources and certificates can all be accessed using this one dynamic tool. There is also the option to personalise content and offer off-the-shelf courses.

### Benefits

Simple, easily-accessible site layout and structure

Central hub for all event booking, resources and reporting

Works on all devices including mobiles and tablets

Allows delegates to book courses and access certificates

Fully integrates with Phew Events Booking and Training systems

Allows Boards to upload training resources, materials and access registration and event reports

### Key Features

#### Fully integrated with website and Events and Training system

By linking this platform to your Phew Events platform, all information is linked together allowing for ease of access and a streamlined approach for both users and Boards.

#### Ability to offer bespoke courses

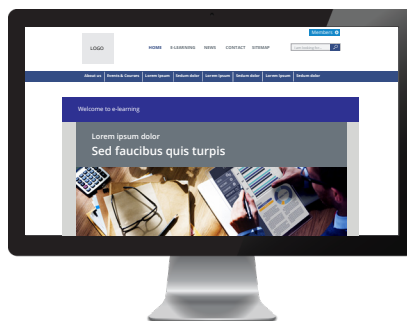

The flexibility this eLearning platform provides allows you to deliver bespoke courses to specific target audiences.

#### Personalised content

This system enables Boards to personalise the content for each individual eLearning course to fit the individual requirements.

#### Fully customisable to your organisation

As with all our platforms and systems, this tool can be built to your brand requirements, with your logo and colour scheme prominent throughout.
