

HEALTH AND SAFETY POLICY

In iSURVEY Group we shall work together as a team and enjoy a productive and safe working environment. iSURVEY Group applies a zero-harm ambition.

iSURVEY Group Commitment:

1. Promote awareness of work place hazards and provide the necessary tools for risk assessments and implementation of control measures.
2. Encourage commitment and cooperation of all managers, employees, contractors and visitors to ensure workplace health and safety.
3. Promote everyone's responsibility to intervene when an unsafe act or condition is witnessed.
4. Support initiatives to improve the health and safety within the organization.
5. Create an environment to limit mental health issues and provide professional support to those who need it.
6. Allocate enough resources to achieve a safe and effective working environment on all projects and sites.
7. Train employees to conduct their assignments in a competent manner.
8. Provide a reporting system to all employees and third parties involved that allows for analysis of incidents and dissemination of lessons learned.
9. Establish effective and documented HSE procedures that covers all relevant operational aspects.
10. Set health and safety objectives and specify key performance indicators subject to systematic review.
11. Comply with internal procedures, standards and supporting documents applicable to the work.
12. Comply with legislation and regulatory requirements where ever we work.
13. Carry out audits and inspections on iSURVEY Group work sites and sub-contractor facilities as applicable.

Øivind Røegh, CEO
