// Web Developer Role

We're on the lookout for a talented Junior Web Developer to join our in-house team.

About Logic Design

Located in within the heart of Suffolk, Logic Design is a multi-award-winning creative agency that specialise in all forms of digital media.

From our converted barn studio, we work across a range of projects helping to build brands, create beautiful web experiences and market business within a vast range of sectors.

If you're looking to work within a friendly, creative environment and would like to join our team of passionate designers, developers and marketeers and sales consultants we'd love to hear from you.

Web Developer Role

We're looking for a motivated and enthusiastic Junior Web Developer to join our team.

Working as part of the development team, you'll be involved with maintaining websites and servers, creating functionality and also coding designs from PSD to completed, fully functional webistes.

The ideal candidate would be able to work on their own initiative or within a team of peers, using various methods to create brochure websites primarily upon the WordPress platform.

Reporting directly to the senior developer you must be able to deliver projects on schedule, undertake problem solving when required and stringently test your work. Within your daily responsibilities you would be expected to work closely with clients, everything from initial planning within the project team through to the delivery and launch of their website or application.

Likewise, the successful candidate will assist with the ongoing management of the company's servers and should have knowledge in this area.

The Successful Candidate would have:

- At least 2+ years of commercial experience within an agency
- Perfected skills in hand coding HTML, CSS and JavaScript
- Strong Experience with WordPress
- An understanding / knowledge of development using PHP/MySQL
- A basic / in-depth knowledge of managing Linux servers
- The ability to plan, test and debug their own work
- A desire to work with their peers when required
- Excellent communication skills

Salary

Competitive wage structure, based on experience

Want to Apply

If you feel you would be suitable for the position advertised and would like to become part of the successful Logic Design team, please send your CV and covering letter to howie@logicdesign.co.uk. Alongside your CV feel free to send any examples you believe demonstrate the skills required as well as questions you may have about the role. As part of the application process we will be asking applicants to complete a small proficiency test at the interview stage.
