Celebrating our 50th year!

The Inside Story

First off... a very big thank you to all our loyal Boating customers.

Your support has made the "Boatworld" boats brand grow and grow, we are adding to the range and tweaking it all the time to make boating affordable.

So what's new and cool for 2019??

Well after exhibiting at the Southampton Boat Show we took on board the feedback from customers for more Tender sized

boats, so to that end we have added 4 new Tender sized boats with all the davit points.

Speaking about the Southampton Boat Show put the dates in your diary now 13th-22nd Sept, we will be showing our boat and outboard range again.

We also have a new fishing boat the 360 Fisher Pro, a solid alloy floor boat with 9 factory fitted Borika mounts, allowing you to fit rod holders, fishfinders, anchor locks,

"A" frames and much more.

Borika from Ukraine... *Wow check this immense range out.* All you need is to fix the Borika mount and a whole world of possibilities opens up to adding function to your boat.

We are the UK Distributer for Borika so Trade enquiry's are most welcome.

Also from the Ukraine is Elling Boats an awesome inflatable fishing boat.

Check out the Patented Triboat KB350, its unique hull shape enables it to reach speeds of 30 mph from only a 6HP !!

Our ever popular range of Orca outboards go from strength to strength and our old favourites Honda Marine, Walker Bay Boats and Bic boats.

*See you out on the water

Looking After You, Your Passengers & Your Engine

MOB+™ WIRELESS MAN OVERBOARD SYSTEM

Your personal life guard

The corded kill switch is rarely used as it ties you to a very limited space onboard. With MOB+ Wireless Man OverBoard System you regain freedom – **without losing safety.**

The xFOB is your personal safety guard at sea. Being placed in the accompanying xBAND or xTAG, the xFOB unit does not inhibit any movement or motion. Should you fall into the water the engine(s) will stop in just one second.

Install the MOB+ xHub then attach a xFob to you, your passengers and your pets to keep everyone safer!

BLU THRU Marine Flushing System

Rescues Engine!

Terra Nautica, based in Javea on the Costa Blanca in Spain, has been a trade customer of Boatworld now for the last 3-4 yrs. Terra Nautica is well known in the area for selling, servicing and repairing customers' boats. It also offers boat storage, IYT training courses and launching facilities.

The company is run by Paul Devenish who has years of experience in the marine business, selling and servicing boats. Paul is from an engineering background and has spent a lot of his time working on both outboard and inboard marine engines.

Paul bought some Blu Thru last summer from Boatworld, a little sceptical but curious as to whether it might help maintain customers engines. September last year he had a chance to use it. Paul takes up the story:

"A customer brought in an old Mercury 15HP outboard. To be honest it was in a right state. We managed to get it to run but there was no tell tail at all and the waterways were seriously clogged up where the salt water had crusted it up. On inspection it seemed to be blocked around the powerhead where it was awkward to get anything down the channels to clear it by hand. Now I would normally have told the customer at this stage that it wasn't worth bothering with, but then I thought let's try this Blu Thru stuff. So we ran it up with Blu Thru in the tank, stopped it and left it to soak overnight. Next day ran it up again and to my surprise there was a small dribble of blue water now coming out of the tell tail!! It still wasn't enough at this stage so switched it off and left it for a couple of hours. But next time I started it, it soon went from dribble to a healthy stream! I can honestly say I was surprised by that.

We now are using Blu Thru regularly on customers engines. We store and winterise a lot of boats and now we flush them all with Blu Thru. We also now incorporate it as a routine with all engine servicing. Recommend it."

STANDARD HORIZON HX300E VHF FLOATING RADIO

HX300E. The HX300E - The World's first ever marine handheld VHF Transceiver to feature a USB Recharging Port, finding the correct charger for your handheld has never been easier. The new ultra compact, high-capacity 1650 mAh 3.7V lithium-ion battery, allows for a much more compact case size and remains light enough to float face up if dropped in the water. Retrieval of the unit is further assisted by a large bright red flashing LED strip along the bottom of the front panel, which activates upon contact with the water. An added feature is that this light will enable even if the radio itself is switched off. The HX300E is waterproofed to IPX-8 standards submersible to 1.5 metres for 30 minutes; as with all their products, Standard Horizon is so confident of the build quality that it comes with a three-year waterproofing guarantee. Transmit power is switchable between Low 1W and High 5W, and there is a time-out facility which limits transmission time to 5 minutes thus preventing unintentional prolonged transmissions. Where no charging facilities exist, a dry cell option battery holder, FBA-44, can be used, allowing the radio to be powered by 3 AAA dry cells.

Boat Fenders

HULL HUGR CONTOUR FENDER

HH-1. Traditional round fenders tend to roll up, leaving your boat unprotected. They're also bulky to stow. Boats with step-down gunwales are especially vulnerable to damage from docks. HULL HUGR Contour Fenders stay put and stow conveniently under boat seats. They hinge to wrap around the gunwale and hull, following the contours of the boat. All HULL HUGRs are constructed of an durable marine grade tri-laminate cover, with closed cell foam inside. There's a tough polycarbonate grommet at each end for hanging from cleats. Blue, Black or White. Size: 24" long x 6" wide x 2 1/2" thick.

£12.90

AIRHEAD NON-SLIP FENDER STRAPS

SF-2. These Non-Slip Fender Straps allow you to attach boat fenders to rails and cleats quickly and securely. The non-slip pads sewn to the underside of the straps help to minimize sliding along rails. Easily adjust the length in seconds from 6 to 40 inches. Pack of two. Fenders Not Included.

CLEARVUE KEEL PROTECTOR

Designed and engineered by boaters for boaters. This extruded PVC part is built tough to withstand harsh outdoor service. We know as well as anyone, that keel protection is extremely important in the longevity and resale value of your boat. The clear, 3M-adhered backing will allow you to see any air pockets during installation, which cause a lack of adhesion. Additionally, channels and a center alignment feature moulded directly into the part help make installation easier and ensure proper adhesion to the keel of your boat. Protect against abrasion from sand, rocks, stones, and ramps.

OUTBOARD KILL SWITCH KEYS WITH LANYARD

BKS-6. Be Prepared, Always Carry a Spare! If you lose or break your kill switch key, for whatever reason, you won't be able to start your engine. Most marinas don't stock replacement keys, so your much-deserved day out on the water will be ruined. This lanyard has 7 keys to fit all Johnson, Evinrude, Mercury, Yamaha, Suzuki, Honda, and Nissan/Tohatsu kill switches. Equipped with a swivel snap hook to prevent tangles, and rust-free stainless steel crimps. Don't leave the dock without it!

JET LOGIC PWC FENDERS

SB4. Jetskis and personal watercraft require specialised fenders to prevent damage from floating underneath docks designed for boats. The Jet Logic PWC Fenders are 3" x 18" with nylon covers and attach to your PWC with 2 giant suction cups or secure under your seat and console. The Jet Logic PWC Fenders are great for protecting your jetski when moored up to docks, for rafting boat to boat or PWC to boat.
£18.95 per pair

IMPELLER PROTECTOR

IP-24. Keep ski ropes away from your PWC's impeller and protect passengers from ski rope kick-back. Simply run your ski or tube rope through the middle of the impeller protector. Then attach the rope and straps to your ski tow eye. Black nylon covers the 24" long closed cell foam tube.

TELESCOPIC PADDLES

These lightweight paddles adjust easily to variable lengths with a simple twist. A section of the aluminium shaft disappears inside the blade to allow for compact storage under boat seats or in PVC storage compartments. The corrosion-resistant aluminium shaft, high-impact moulded blade and boat hook handle, and hassle-free locking device ensure years of service. The bright orange blade is great for signaling in emergencies.

P-1: 20 - 45 inch long, for low profile boats and PWCs.

THE REVOLUTIONARY SKYWINCH

XC258. Trailer winches haven't changed much in the last 100 years. They still require wading down slippery ramps, or balancing on beams to connect the boat. Straps and cables get twisted, kinked and tangled up and spinning crank arms cause countless injuries each year. But, these are just facts of life that we've all learned to live with, until now. The revolutionary SkyWinch is the opposite of traditional winches and eliminates the hassles and dangers of trailering. Simply leave a bow-line attached to your boat and walk it to your trailer without wading in. Then just place rope into SkyWinch, pull tight, and start cranking. The Patented wheel grips the rope and easily pulls most lighter-weight boats under 18'. The crank arm will not spin backwards until released with trigger for control led payout. Accepts ropes to 1/2" diameter and fits most standard trailers with included mounting bracket & hardware. For best results, use with 1/2" solid-braid rope with break-strength rating that exceeds boat weight. Designed for sports boats 18ft or under.

The Watersports & Boating 64 Page Guide for 2019

The best choice of Inflatable Toys & Tubes, Wakeboards, Kneeboards, Waterskis, Wetsuits, SUPs, Bindings, Beach Gear, Inflatable Boats, Boat & Personal Watercraft Accessories and much, much more!

Celebrating our 50th year!

The Inside Story

Phew what a scorcher the 2018 season was.

If the weather mens' prediction is correct 2019 is heading for another hot summer.

What could be better than tubing or wake boarding in the UK when the Sun is beating down.

Last summer we had quite a lot of items sell out before July rolled around so don't miss out this summer, get your orders in early.

Hot stuff to check out this season is the Zup "Do More" a high performance version of the original Zup in compression moulding.

The "Do More" offers a tri fin option that turns the board into a great wakesurfer.

We also have a couple of new tubes from our in house brand "Boatworld" the Vortex & the Vortex Duo, great durable tubes at everyday low prices, plus why not get paddling on our NEW 11ft Boatworld Charger SUP? Comes kitted out with a terrific package!.

Wakesurfers get more popular every year and we have 2 crackers for you, an entry level give it a go board from Airhead, the Charge at under £200 !! And the very Classy O'Brien Royale.

*Give wakesurfing a go this Summer.
See you out on the water

#1 Tube Tear Fix!

AIRHEAD TEAR AID TYPE B

AHTR-1B. TEAR-AID Repair Patches provide a simple and easy method of patching holes and tears, as well as an excellent protective film solution. Each TEAR-AID Repair Patch is made from an exceptionally tough, matte finish, abrasion resistant, elastomer that resists puncture and tearing. It is combined with an aggressive adhesive formulated for high bond strength. Tear-Aid expands absorbing force on impact and always returns to original shape and size. This flexibility allows the patch to conform to irregular surfaces without restricting the movement of the repaired material. The TEAR-AID Type B vinyl repair patch sticks to - Vinyl and Vinyl-coated material ONLY. Vinyl has oils that are absorbed by most adhesives which cause the adhesive to turn gooey, gummy, and ultimately lose bond. Tear-Aid vinyl repair patches contain an inhibitor that blocks the oils found in vinyl resulting in a long-lasting repair.

O'BRIEN ALL-STAR TRAINERS

2181140. When it's time to teach the kids to ski, the All-Star Trainers are the ultimate training tool! When you get a pair of All-Star Trainers, you are really getting a training system. These 46-inch skis come with a stabilizer/trainer bar that prevents the skis from doing the "splits" and keeps them level. They also come with two ropes as part of the package; a short training rope with a handle that connects to the stabilizer/trainer bar at the front of the skis that the skier holds on to, and a longer rope with a handle to be held by an experienced observer in the boat. With this system, the observer can release the skier if they fall, taking the pressure off the kid. This system makes it incredibly easy to get them up and skiing with minimal drama. Supports a weight range up to 85 pounds with kid-sized adjustable bindings. These skis feature a dual tunnel bottom which track great and create lots of lift. Moulded-in fins are unbreakable and provide outstanding stability. The All-Stars are the perfect system for making your kids into water-skiers! Length - 46". Stabilizer Bar. Trainer Rope with Handle. O'BRIEN ION

2161226. Inspired by the industry leading technology of the SoZo, the Ion is constructed using the same "sandwich" technology for light weight, a nearly perfect flex pattern, and spectacular control. The Ion was specifically designed to work equally well behind the boat AND on cable, with a bit more flex than the SoZo to absorb impacts and make turns nearly automatic. The continuous rocker line gives great control on obstacles, sliders and kickers. The Ion is very, fast yet supremely maneuverable, and landings are incredibly forgiving due to the clean shape, continuous rocker, and softer flex pattern. The Ion is unquestionably a top performer in kneeboarding.

O'BRIEN RADICA

2151210. The Radica is our response to demands for exceptional performance and value. Taking cues from our already industry-leading kneeboard designs, we've blended wakeboard and water-ski design elements into the Radica to bring levels of performance previously unheard of at this price. Wakeboard styled quad, cupped moulded fins make edging and carving a breeze, while allowing release for spin-type tricks. The water-ski influenced edge bevel helps the board sit low in the water for stability and allows quick edge to edge transitions when carving. From the built-in hook that makes getting up easy, to the super-stable ride that beginner & intermediate riders will love – you just might say it's radical! Integrated hook. Quad moulded fins. O'BRIEN SOZO

2161228. The O'Brien Sozo is ridden by nearly ALL the top kneeboarders in the world! It is truly in a class of its' own. The Sozo is explosive, lightweight and unbelievably maneuverable. The clean, fast template comfortably initiates turns, edges up the wake with ease and is extremely forgiving. It features O'Brien's Fusion Core (wood stringers within a foam core), which is CNC machined to exact specifications, giving the board a liveliness and lightness like no other. Its' unique Sandwich Construction insures the optimum flex pattern, storing energy and releasing it perfectly when you punch off the wake. The Sozo pad is state-of-the-art as well. This extraordinary pad softens landings like no pad ever ridden. It is extremely soft, supportive and can be adjusted perfectly on the board to the riders preferred position. All the pros agree, the Sozo kneeboard is the best board on the market, hands down. The Sozo Park Edition featuring an Impact Base bottom is now available.

Wakeboard Buying Guide

Rushing over the water while being pulled by a speedboat might not sound like fun to everyone, but for wakeboarders there's nothing like feeling the adrenaline of flying across the water at 20 miles per hour. Wakeboarding is a sport that originated from water skiing and surfing, while also taking some influences from snowboarding and skateboarding. It consists of a rider who's strapped to a wakeboard via foot bindings and towed by a speedboat over a body of water. The rider changes directions and performs tricks using the pull and "wake" of the boat. Some wakeboard courses may have rails and ramps where the rider can execute more daring feats.

Boatworld offers a wide range of Package deals to suit all pockets and abilities.

Whether it be a top end Pro model from Market leaders O'Brien or one of our special purchase deals to enable you to get on the water and a bargain price.

If you need any advice on the selection of your wakeboard please call us 0870 043 4942.

Length of the Board

Size is one of the most important factors when it comes to choosing a wakeboard. As a rule, the size of the wakeboard should match the weight of the rider. The chart below shows the ideal length of wakeboards for the corresponding weights of riders.

Rider weight in lbs.	Wakeboard length in cm.
25 - 90 lbs	111 - 130 length cm
90 - 150 lbs	130 - 134 length cm

LIQUID FORCE TRIP WITH JOBE REPUBLIK BINDINGS

138/142 cm. 2175107. The Liquid Force Trip Wakeboard is a true industry classic that stands the test of time, designed and created specifically to provide you with the most enjoyment behind your boat! Beginner to advanced, the TRIP covers the entire spectrum - it will help the beginner improve and learn new tricks and can take the expert rider that likes a smooth, predictable board to new heights.

The aggressive, continuous rocker provides smooth edging and fluid boost off the wake. Molded-in side fins track and hold with minimum drag while the variable edge rail offers that extra "friendliness" when you need it. **REPUBLIK BINDINGS** Jobe's luxurious Republic Wakeboard bindings have The System for beginner to intermediate wakeboarders because it locks in a wakeboarder its feet with deadly precision. The Republic Wakeboard Bindings feature stretchy flex panels to control your ride and custom Jobe lace locks to secure your feet.

EZ WAKEBOARD TRAINER AND BODYBOARD IN 1!

Airhead Ez Wakeboard Trainer is a revolutionary inflatable / bodyboard hybrid. Ez Wakeboard Trainer is engineered for stability while towing (10 mph maximum), so your child will feel very secure. Ez Wakeboard Trainer is the ultimate confidence builder, taking the tears, fear and frustration out of teaching new young boarders and replacing it with safety and fun! Your child will enjoy immediate success on Ez Wakeboard Trainer. No fighting with diving wakeboards, boat wakes or ropes! Children board the stable Ez Wakeboard Trainer right from the swim step or stern of your boat, no swimming required. While your children have the time of their lives on Ez Wakeboard Trainer, they'll actually be learning to be comfortable with the speed and sensation of watersports. This awesome trainer teaches basic wakeboarding, kneeboarding, wakesurfing and wakeskating fundamentals including proper stance, handle position, balance and weight transfer for turning. They'll be doing tricks in no time! The Ez Wakeboard Trainer body board is easily removable for more advanced body boarding behind the boat, or take it to the beach and ride the waves! Patents pending. AHEZ-300: 1 Rider, 70 lbs. weight capacity, 47" x 35" x 12" (LxWxH inflated). Body Board size: 39"

CRAZY FOIL ACROBATIC

CX97-1. If you love Wakeboarding then the Crazy Foil Acrobatic is the Foil of choice for you. It has been designed specifically for towing behind a boat. With a Crazy Foil Acrobatic fitted to the underside of your wakeboard or wakeskate you are entering a whole new world of watersports experience. The easiest way to describe Foilboarding is to say it is like flying over the water! The Acrobatic has a 34" main mast and shorter foils than the Glider making it more manoeuvrable at a higher speed.

£499.95

CRAZY FOIL GLIDER

CX97-2. If you are into Wakesurfing then the Crazy Foil Glider is the Foil for you. It has been designed specifically for Wakesurfing behind a boat. The main mast is shorter than the Acrobatic at 26", making it easier to pump on the surf, and the wider foils make it easier to stay on the plane.

£499.95

SUBWING HONEYCOMB

XC1145. Two composite wings with rubber pads for perfect grip. One detachable centre swivel. One attached rear rubber triangle. Ropes attached to the wings. (You still need a rope to the boat). Available in Blue Hawaii or Blue Flame graphics.

XC1145-5
WHITE FLAME

SAFETY: Keep to quiet areas when using the Subwing with few, if any, other boats/craft around. We recommend also towing a surface buoy behind your boat when you have someone on the Subwing to help prevent any craft crossing too close to your stern. Flying a Diver Down Flag in the boat is also recommended.

Free tow rope with every Subwing

SUBWING BAG

XC1146. The Subwing Bag is designed to extend the life of your Subwing by protecting it against sun damage, dents, bumps and scrapes. The bag is neatly designed to contain your Subwing in both the assembled and dismantled state. One side is fitted with a tough padding to enhance protection when the bag is used folded. Heavy duty tarpaulin and polyester fabric. Holder strap for swivel part. Extra heavy duty zip. Two carrying options- folded and unfolded. Small enough for Airline carry-on luggage. Fits all SubWings.

O'BRIEN ROYALE WAKESURFER

2191242. Size: 163cm / 63", 54.6cm / 21.5". Whether you want a mellow cruise behind the boat – or you are looking to get after it, the Royale delivers! At 63" & over 19.6 litres of volume, the Royale is big enough for almost anyone – but also responsive enough for serious shredding. Ideal for those with a smaller wake or bigger riders in need of more volume, the Royale provides the perfect blend of a forgiving ride with a surprising level of agility and freedom on the wave. Constructed with new Surf CAP construction, the Royale is light for its size and more durable than you would expect. Rider Profile: beginner to advanced surfers in search of a larger board construction: Surf Cap – An extremely lightweight foam core wrapped in a durable polymer shell. Super light and extra strong, this shell makes the board resistance to dings to keep you shredding and eliminate the stressing. Volume - 19.63L.

Weight range - 72kgs and above / 160LBS. Fin Merc 3.0.
