The Mysteries of the Tree of Life

Kabbalah Distance Learning with Will Parfitt

What is Kabbalah?

Kabbalah, or Qabalah (an alternative spelling) is a unique way of understanding all aspects of ourselves and is a rewarding guide for personal and spiritual development. It is at the heart of the Western Mystery Tradition, and is based on a map of consciousness called the Tree of Life. Will Parfitt has updated the ancient wisdom of Kabbalah to create a system of practical relevance to our modern life, offering as it does a greater sense of freedom and fulfillment through including all aspects of our experience from our greatest heights to our deepest depths.

About these courses

Since 1981, these practical Kabbalah courses have had hundreds of students from all parts of the world. Currently students come from areas as diverse as Sweden, California, England India and Australia. The courses offer an access point to the ancient mysteries of the Kabbalah, and make teachings about the Tree of Life understandable and meaningful to our modern life.

Students and graduates include people from all walks of life, from business people to artists, from fishermen to complementary medicine practitioners. Somewhat over half of the students are female, and students come from a wide variety of religious and ethnic backgrounds.

A student is accepted on the basis of her or his life experiences, and self-perceived ability to undertake the courses. The majority of graduates continue working with the Tree of Life and report its continuing relevance to their life's journey.

The Mysteries of the Tree of Life

Exploring the Mysteries of the Tree of Life through distance learning is the starting place if you are new to Kabbalah or want to review your existing knowledge.

As a student you work through very accessible lesson material that presents the Tree of Life in a practical way with reading, reflection, visualizations, meditation and so on. Connecting Kabbalah into your own life experience, it becomes of meaningful value to your personal and spiritual development.

Undertaking the course work, combined with a personal project of your own choosing, you are asked to keep a journal and send material to Will at regular intervals for appraisal and comment.

On completion of of this course, a certificate is awarded to those who are able to demonstrate they have thoroughly grounded Kabbalah into their lives. How long this takes depends upon your personal progress and rate of work, but the lessons average a period of one to two years to complete.

Exploring the Mysteries of the Tree of Life is a complete introduction to the Kabbalah which enables you to apply your Kabbalistic understanding in both your every day life and in your spiritual journey.

For those who wish to continue with further guided study and practice, advanced tuition which leads to a Diploma is available.

Diploma in Kabbalistic Practice

This course is for those who have either completed *The Mysteries of the Tree of Life* course or who have previously undertaken relevant Kabbalah study and practice.

This level of distance learning broadens and deepens your connection with the Tree of Life, a process facilitated through a co-creative approach to learning. We work together to discover practical ways to develop and integrate your Kabbalistic Practice.

This course is open ended and individually tailored, requiring a deep level of commitment. We will have detailed discussions about how you may appropriately proceed with this level of work.

A Diploma in Kabbalistic Practice is awarded upon successful completion.

Group Courses and Seminars

Group courses, seminars and workshops led by both Will and other course leaders are occasionally offered as an option. Whilst these are not mandatory at any stage of the distance learning programme, students are invited to attend those that suit their Kabbalistic interests.
