Technologies

Changes to a different spray type or shower in moments.

Keeps the flow to a minimum to save water and energy without any performance loss. For lasting pleasure.

Combines water with a generous amount of air. For a soft, splash-free water jet and rich, full shower drops.

Remove limescale deposits simply by rubbing the flexible silicone jets.

Distributes the water over a large shower face, so your whole body is completely enveloped in well-being drops.

Defines the individually utilisable area between basin and mixer, to suit any requirement.

When turning the mixer on, only cold water flows. Hot water only comes through when you need it.

Spray modes

Perfect for rinsing shampoo out of your hair.

Gentle rainfall with air-enriched drops.

Soft relaxing shower rain.

Concentrated targeted massage spray.

Dynamic, revitalising massage spray.

A combination of soft shower rain and dynamic spray.

Powerful flood jet for generous coverage.

Generous flow of soft sprays.

Finishes

The last 3 digits of the product number define the finish.

Example: **28500, -000** = Chrome

000 Chrome | 400 White/Chrome | 800 Stainless Steel Optic

Hansgrohe – a brand and a promise.

There's now a little button in the bathroom that provides a tremendous amount of pleasure.

Worldwide, the name Hansgrohe stands for the best design, intelligent functions and excellent user friendliness. We never stop reinventing the way we use water to make the user experience even better, so within this brochure you will find lots of fabulous products of exceptional quality that will provide you with your perfect experience of water pleasure. For instance, with our new Select technology: a simple button provides even greater pleasure and freedom in the bathroom

and kitchen. This turns our ideas for water into an experience in your home. Over the following pages, you will discover award-winning aesthetics with innovative technology and excellent quality - all made by the German manufacturing experts at Hansgrohe.

Happy reading!

Yours, Richard Grohe

You will find the iPad version of this catalogue - along with videos and various interesting applications - at <http://itunes.com/app/hansgrohecatalog>

10 things you never knew about showering.

What is our favourite way to shower?

We at Hansgrohe do our very best to make sure that you have the perfect shower experience. To help us achieve this, we carried out surveys in 8 countries, work with 700 product testers all over the world, evaluate over 1.3 million responses, and every day conduct one to one research with consumers in ShowerWorld in the Hansgrohe Aquademie on the subject of showering behaviour. These are the 10 most fascinating things that we have found out:

On average, men shower for **12.66** minutes and women for **13.27** minutes.

Shhhower

Over **20 %** of you would like a quiet zone or seating area in the bathroom.

47 % of people prefer to shower in the morning.

Three out of **five** people sing in the shower. Sappy love songs are the favourites.

Worldwide, we spend an average of **70** minutes in the bathroom every day.

53 % of people confirm that RainAir is their favourite spray in the shower.

94 % prefer the new Select button to the traditional adjustment ring.

17 % say that the shower is a source of inspiration.

What did you like best about the Hansgrohe products?

VARIOUS SHOWER SPRAYS LARGE SHOWER HEAD
RAINAIR SPRAY TERRIFIC SHOWER EXPERIENCE
EASY TO HANDLE IS COMFORTABLE IN THE HAND SELECT BUTTON
LOVELY DESIGN GOOD QUALITY
EASY TO CHANGE THE SHOWER SPRAY
PLEASANT SPRAY PLEASANT FEELING WHILST SHOWERING

What is it that makes the Raindance showers so special? Well, the name says it all, really: when you turn on the water, you start to dance under the shower – and that’s every morning (if you shower every morning) ... and you can sing as loudly as you like.

Product tester, trend project 2013

We work hard to exceed your expectations in everything we do.

Quality - made by Hansgrohe.

Everything we do is about making perfectly developed products for you. Reliable products that will last for a long time, in excellent design and with exceptional user comfort. To that end, we are devoted to tinkering, testing and manufacture to the highest standards, here at our head office in Germany's Black Forest and also at our other sites all over the world.

TRADITION.

You can trust our long-lasting, sustainably designed products. We have been delighting people all over the world since 1901.

DESIGN.

You can enjoy the form and function of our products every day anew. We have been collaborating with renowned designers for many years to produce them. With the success that results in our aesthetic ambition repeatedly being rewarded with international design awards. In fact, in the iF ranking Hansgrohe has the honour of being listed as the best manufacturer in the sanitaryware industry.

DESIGNED

DEVELOPMENT.

Our aim is for you to have as much enjoyment from using our products as we do developing them.

TEST CENTER.

Products that function perfectly are essential. To ensure that they do, we ask for your help with testing them.

PRODUCTION.

So you can be sure our products will last you a lifetime, all our locations, all over the world work to Hansgrohe's exceptional quality standards.

ITY
ansgrohe
FOR LIFE

PRODUCT CLASSIC.

Enjoy many years of water pleasure: with our products that delight with their excellent design, high level of functionality and meticulous manufacture.

**Set to nothing
but pleasure:**
Shower pleasure.

Our latest shower technology: **Select.**

The easiest decision in the bathroom.

Our most recent milestone is an elegant button. This has not only revolutionised the way we use water, but also set new standards in ease of use and control. Use the Select button to change spray types at a click, select various showers or start and stop the water flow with absolute precision. For the ultimate water pleasure.

Change the spray types on hand and overhead showers at the touch of a button.

The Select buttons on the ShowerTablet, and ShowerSelect thermostats, switch the showers on and off.

More shower technologies.

Passion for water, innovations for the bathroom.

AirPower.

Generous amounts of air are drawn in through the spray face. This quite literally stirs up the in-flowing water. The resulting air-enriched drops are fuller, lighter and softer. This not only feels good, but it also means that you are making the most efficient and splash-free use of your precious water.

QuickClean.

All our showers have flexible silicone jets. Any deposits are quickly removed simply by rubbing a finger over them. Well looked-after limescale-free products not only look much nicer, they work better and last longer.

EcoSmart.

Back in 1987 - long before saving water became such a big issue - Hansgrohe developed a hand shower, the Mistral Eco that used only half the amount of water and saved previous energy. Today, EcoSmart showers consume only nine or six litres per minute, and save up to 60 % water and energy.

XXL Performance.

By intelligently distributing the water over a large area, the whole body is enveloped in a feel-good shower rain. For fabulous water pleasure.

As individual as you are: Our range of showers and sprays.

Choose your perfect shower configuration and the matching control from our variety of showers.

Soft summer rain, a powerful waterfall or a revitalising shower spray? Whatever your idea of the perfect shower

is, through our showering options you will be able to turn your dream into genuine shower pleasure. Design your individual

shower - with the shower configuration that suits you.

Hand showers and shower sets

The basic solution - offers the same full shower pleasure, and is easy to mount on the wall.

Overhead shower

For relaxing or rejuvenating - because every day deserves a different shower. Concealed installation, integrated into the wall.

Showerpipe and Showerpanel®

Shower pleasure in perfection - including quick, easy installation on existing water connections. Perfect for renovations.

Shower control surface-mounted

Fits best on existing connections. The easiest way to a new shower experience. Also ideal for renovations.

Shower control concealed

The mixer body disappears inside the wall - for complete freedom of movement under the shower.

Our hand showers: Innovation at your fingertips.

The little button that provides a tremendous amount of pleasure.

The new Select technology on the hand shower now makes showering even better. Instead of the tedium of twisting and adjusting the spray face, all you have to do to change between the three spray types is touch a button. Our hand

showers also look really good. They are available in round or square designs, in pure chrome or chrome with a white spray face - to delight the eye as well as being inviting to the touch. What's more even the environment can be happy: thanks to

the intelligent flow limiter, the EcoSmart version reduces water consumption by up to 60%.

www.hansgrohe-int.com/select

Raindance® Select E 120 3jet Hand shower

Gentle shower rain to enjoy with air-enriched drops from large jets.

Strong shower rain from small jets - perfect for rinsing shampoo out of the hair.

Concentrated massaging spray from rotating jets to relieve tension.

NEW

Switches over to a different spray type intuitively and in moments, and provides pleasure at the touch of a button.

SELECT

Simply scan the code to watch the product in action.

From the shower to practical use: water in your favourite form.

Studies in Hansgrohe's Showerlab have established that there are three different shower typologies.

Pleasure showering.

Pleasure showerers like to take their time in the bathroom and seek relaxation. They like to wash the day's stresses away, drop by drop. When the water runs down them like rain, nothing and no one can disturb them. They are not only interested in body care, but they also want their soul to be pampered by the water. The lavish, soft **RainAir** spray is perfect for them.

Efficient showering.

When an efficient showerer steps under the shower, they want to be refreshed when they come out. Sometimes it only takes them a few minutes to achieve the desired results. The shower should have an instant effect. Shampoo, for instance, must rinse out quickly and thoroughly, or they become impatient. A clear case for the strong **Rain** spray.

Focus showering.

A proper shower must be really intense for a Focus showerer, and go deep down, showering away deep-rooted tension, or perhaps the after-effects of a demanding last work-out. They like to feel completely 'loose' when they leave the shower, all their cares and stresses washed away, ready for the evening or their next bout of sport. The **Whirl** spray gives them a targeted massage.

Beauty has two faces.

The Raindance Select hand and overhead showers are available in pure chrome or chrome with a white spray face.

The last 3 digits of the product number define the finish.
 Example: **28500, -000** = Chrome
 000 Chrome | 400 White/Chrome

Chrome.

White/Chrome.

Our overhead showers: The loveliest rain in the world.

Experience the ultimate in shower pleasure at the touch of a button.

Now it's also possible to select the spray type on the Hansgrohe overhead showers at the touch of a button. Rain and RainAir offer relaxation - as full sprays over the entire spray face. The RainStream spray showers with twelve lavish rainsprays, wide and sparkling, to wash your cares away. The appearance

of these overhead showers is just as varied as the showering experience. They are available in the classic round shape or as a contemporary rectangular form; in pure chrome or chrome with a white spray face. They have also been given an elegant, subtle chrome edging, a higher, more fashionable rim and an attractive

wave structure. The spray face is easy to detach for cleaning, which helps extend the lifetime and keeps it looking as good as new.

www.hansgrohe-int.com/select

Raindance® Select E 300 3jet Overhead shower

NEW

Switches over to a different spray type in moments. Provides pleasure at the touch of a button.

Gentle shower rain to enjoy with air-enriched drops from large jets.

Strong shower rain from small jets - perfect for rinsing shampoo out of the hair.

Lavish flow from 12 wide jets - for effective relaxation.

Spray modes: Beauty is in the eye of the beholder.

The overhead showers also have the right shower spray for any user.

RainAir.

Every single drop from the RainAir spray bursts forth from a large, wide jet, absorbing lots of air at the same time. This results in a soft, voluminous shower rain.

Rain.

The new Rain spray focuses the water on its strongest characteristics. Released from small, narrow jets, it refreshes powerfully and quickly, and is ideal for rinsing out shampoo.

RainStream.

Gentle and yet strong, 12 lavish, sparkling sprays pour forth from the back area of the overhead shower. These wide individual jets simply make the burdens of the day disappear as soon as they touch the head and shoulders.

Our Showerpipes: for the highest standards without compromise.

Experience your shower anew at the touch of a button.

Everything about the Showerpipes is simply lovely – and lovely and simple. The new Select buttons on the hand shower, the overhead shower and the thermostat make it even easier to select the shower and spray type. Elegantly integrated in the ShowerTablet, all it takes is a little

click for you to be immersed in an entirely new shower experience. Enjoy perfect forms and perfectly matched components in all the Hansgrohe Showerpipes. The Showerpipes are quickly and easily fitted to the water connections on the wall – the perfect solution if you are renovating. This

also applies to the Showerpanels: they offer maximum shower pleasure thanks to the overhead, hand and side showers that have all been pre-installed in the panel.

Our shower control for surface-mounted installation: for pure shower pleasure.

Now even more quintessential thanks to the Select button.

The Select technology now makes it even easier to choose your favourite spray type on the thermostat. The hand shower switches on and off at the touch of a button. Furthermore, the thermostat holds

the shower temperature constantly at your chosen setting, preventing unwanted hot or cold surges. The ShowerTablet Select 300 makes everything easy right from the beginning. All working parts are outside

the wall and fit directly onto the existing water connections - so it's perfect when renovating.

Intuitive.

The Select button is entirely intuitive and easy to operate from the front. You just switch the water on and off.

Practical.

There is plenty of room on the glass surface for toiletries, which eliminates the need for an additional shower shelf.

Pinpoint precision.

The desired temperature can be set precisely on the large, user-friendly turning control that is located on the front of the thermostat.

ShowerTablet® Select 300: perfect in combination with a shower set.

Our shower control for concealed installations: the new way to control pleasure.

For a shower experience that gets under your skin.

The ShowerSelect concealed controls completely redefine shower pleasure. The showers are easy to switch on and off using the flush-integrated Select buttons. Operation is intuitive, and because they are made exclusively

from mechanical components, they are also extremely reliable and long-lasting. The technology for our concealed shower controls is in the wall. In the iBox universal, to be precise. Divided into two components, one in front and one behind

the wall, they can be installed separately. This gives you more time to choose visible components - and more flexibility, should you ever want to change them. The flat installation provides even more freedom of movement in the shower.

ShowerSelect® with integrated hose connection and hand shower holder

NEW

To switch the showers on and off. The elegant matt Select buttons contrast well with the chrome-coloured surfaces making them legible, and the large symbols guarantee easier use.

Switch overhead shower on and off.

Switch hand shower on and off.

Easy to read temperature indicator.

Ergonomically controlled with the slender, cylindrical handle and pin.

Choose your desired temperature - the thermostat technology will keep it constant.

Hand shower and hose combine independently with the ShowerSelect product.

One for everything.

With the iBox universal, the mixer technology is concealed in the wall. It looks good, and provides more freedom in the shower and more flexibility, as it is compatible with any visible thermostat and mixer solutions. The iBox can be installed before you choose your finish set.

ShowerSelect® thermostat solution.

ShowerSelect® mixer solution.

iBox® universal.

ShowerSelect® thermostat solution with integrated shower connection and shower holder.

Ecostat® thermostat solution.

Shower control for 1 function.

Simplicity at its loveliest: these finish sets control one function, i.e. one hand or overhead shower. On ShowerSelect products this is easy to do at the touch of a button, while on the Ecostat and the single-lever mixers this choice is made by turning a handle or lever. You control the water temperature using the large handle.

What is a thermostat?

Thermostat technology ensures that the water temperature is precise and constant. Hot or cold shocks resulting from fluctuating water temperatures are a thing of the past.

What is a manual mixer?

Mixers are suitable for water supplies where the water pressures are balanced. This ensures a constant water temperature for maximum shower pleasure.

Water at its most perfect:

Basin mixers.

Three style worlds: To turn your dream bathroom into reality.

Sensuous. Clear. Beautiful.

The bathroom has long since progressed from being a purely functional room into a feel-good area. More and more people are creating multi-functional rooms where design and comfort are as important as high-tech functionality. The feel-good culture adds its bit to this

trend: the bathroom has also long been about relaxation and withdrawing from daily life. A room where you spend time to escape from the stresses of daily life. Our mixers reflect this development in the balance between perfect function and beautiful design. To help you to find your

perfect, individual bathroom, we have created three different style worlds for our products. You will find plenty of ideas for your dream bathroom and personal taste here. Let us inspire you.

Avantgarde.

Give the room a special kind of sensuousness with the playful details of the emotional design language.

Modern.

This style questions everything with regard to form and functionality. The result is a calm room that is notable for its clean lines and sensuous shapes.

Classic.

A design language that equates to classic beauty and radiates a warm, harmonious atmosphere.

Avantgarde Style world.

PuraVida®. Award-winning design in white and chrome.

The bathroom is not about tomorrow's trends, but about your own trend. For those who appreciate subtle individuality, they will love PuraVida,

because the rounded lines and organic forms radiate a creative self-confidence. The white and chrome surfaces blend together seamlessly in the DualFinish

process. PuraVida mixers are available in various heights - providing the individual space between mixer and basin that we call ComfortZone.

Classic Style world.

Metris® Classic and Talis® Classic. Tradition and function at their loveliest.

Some things manage to translate the classic understanding of beauty into the here and now. This kind of design combines traditional values such as elegance, warmth and harmony with

modern elements. Balanced shapes emphasise a lasting awareness of what is good. In order to perfect this comfortable feeling, our Metris Classic and Talis Classic mixers also give you the choice of

two heights. Decide for yourself just how much space you need in everyday life to really feel good.

Mixer technologies.

ComfortZone: to suit every requirement.

We call the usable space between the mixer and the ceramic the ComfortZone. The rule: the taller the mixer, the more flexibility you have.

Whether more freedom of movement when washing your hands or finding the perfect mixer to compliment your chosen basin, use the ComfortZone configurator

to find your dream combination.

**[www.hansgrohe-int.com/
configurator](http://www.hansgrohe-int.com/configurator)**

ComfortZone test.

Which mixer goes with which basin? Hansgrohe used the ComfortZone test to test over 7,000 combinations of its mixers with the most popular basins on the market. To prevent irritating splashes and for optimum comfort. You will find the results and recommendations at: **www.hansgrohe-int.com/comfortzone-test**

The height of a basin mixer determines the level of versatility in the daily use of water.

Metris[®] 100

Metris[®] 110

Metris[®] 200

Metris[®] 230

Metris[®] 260

More mixer technologies.

For lasting pleasure.

EcoSmart.

In 1987 - long before saving water became a public topic - Hansgrohe developed EcoSmart technology. At the time, it helped to reduce water and energy consumption in daily bathing routines by up to half. We have consistently developed this technology further since then, and have now reduced the consumption of our basin mixers to just 5 litres per minute as standard.

CoolStart.

CoolStart is the latest step on the way to maximum sustainability: as the mixer is turned on, only cold water flows. You do not consume hot water or the energy required for it until you actively turn it to the left. You will find this function as an option on our basin mixers.

AirPower.

Your AirPower mixer combines the flowing water with air. The air-enriched spray becomes softer and more voluminous which not only feels good but also means that you are making the most efficient and splash-free use of your precious water.

QuickClean.

The aerators of our mixers all have flexible silicone jets. Gently rubbing a finger over them removes limescale deposits in seconds. The mixers stay looking lovely for longer as well as it increases the life of your mixer.

**Yours to enjoy
at the touch
of a button.**

Kitchen mixers.

A touch ahead in the kitchen.

Metris® Select brings new freedom of movement into your kitchen tasks.

Working in the kitchen can be great fun. For instance, treating yourself to a lovely meal after a long day at work, or getting together with friends to cook. The new Select kitchen mixers now enhance this fun factor with the Select button on the front. It can be activated in passing, and turns the water on and off without interrupting the work flow unnecessarily. The Select button can also be operated by the back of a hand or an elbow, so the mixer stays nice and clean. Even if you happen to have dirty hands. It's easier to turn the water off between various tasks, which means it's also easier to avoid wasting water.

Metris® Select

Metris® Select
Single lever kitchen mixer
Swivel spout 150°
14883, -000, -800

Simply scan the code to watch the product in action.

NEW

Turn the mixer on and off.

How to stop the water flow – at a simple touch of a button. The lever remains open, and maintains the pre-set temperature and water quantity.

ComfortZone – lots of space for daily use.

ComfortZone

Spout swivels by 150° – for greater freedom of movement.

The basic shape of the mixer blends harmoniously with the shape of modern sinks.

Open mixer.

Set the mixer once at the beginning of your kitchen activities, and choose the desired temperature. Now you can control the mixer using the Select button on the spout, and leave the handle open for as long as you like. Of course, you can also change the temperature or close the mixer at any time, using the handle.

The handle is rounded at the top for better control of the temperature and water quantity; suitable for all ages.

Good to know:

By the way, the additional ease of use courtesy of Select technology requires neither electricity nor additional appliances in the base unit so it is easy to install: the button works purely mechanically. Simply brilliant.

The new Metris mixers.

Function at its smartest.

These three types have form. The new Metris line combines sensuous ergonomics with smart functionality: starting with the practical handle and the magnetic holder for the pull-out shower spray - that adjust at the touch of a button.

Swivel the spout by 150° for absolute freedom in the kitchen.

The basic shape of the mixer blends harmoniously with the sink.

ComfortZone - lots of space for daily use.

Turn the mixer on and off. The handle is ergonomically rounded at the top for better control of the temperature and water quantity by all ages.

holder for easy attachment
of the pull-out spray.

At home all over the world.

Hansgrohe references.

All over the world, building clients and investors work with architects and planners to complete spectacular and refined projects. There is always a demand for smart, beautifully shaped solutions for the use of the essential element, water.

The mixers, showers, and bathroom collections from the Black Forest add an extra touch of design and comfort to even the best addresses: de luxe hotel and public buildings, private homes and royal palaces, exclusive sports clubs, cruise

ships and luxury yachts. You will find lots of other references on our website:

Experience Hansgrohe products interactively.

Get the future on-screen.

With such a wide range of Hansgrohe products, you will be able to experience water just as you wish to. There are lots of online applications that you can use to obtain as much information as you need. This brings the Hansgrohe innovations to you wherever you would like to experience them.

<http://itunes.com/app/hansgrohecatalog>

Mobile at its best.

The app presents Hansgrohe's products in a comprehensive, interactive and above all entertaining way. The best thing is that if you find a shower you like, you can install it live directly and see what it will look like in your home. A touch of the camera function places the selected product in the middle of the real camera image so you can see it in your own home. Then if you like what you see, you can use the integrated search to find your nearest retailer.

Interactive features:

- Photo function to visualise what the product will look like when it is in your bathroom
- Videos on technologies and spray types
- List of your favourite Hansgrohe products
- Find your nearest showroom

The quickest installation in the world.

As your bathroom can't come to Hansgrohe, Hansgrohe can simply come to you: the Hansgrohe@home app is the easiest way for anyone who would like to see what their chosen mixer or shower solution would look like in their own home. Just take a photo of your current bathroom situation, use your finger to highlight the existing mixer or shower and replace it with your favourite Hansgrohe product. You will see the results on-screen. The integrated retailer search will instantly show you where your nearest showroom is. The app for iPhone, iPad and android smartphones is available at www.hansgrohe-int.com/app or directly at
