TESTIMONIAL - CRC Global

Having worked with CRC for several years now we are extremely pleased to say we are delighted with our working relationship.

We have a central point of contact, Ben Alderton, who provides us with a very efficient, dedicated service. We greatly value his excellent communication skills, price negotiating (which is needed when we have tight budgets!) and most of all his honesty if he is unable to fulfil a position within the parameters given.

We know from past experiences it is very easy for a recruitment company to say they can fill a position and then let us down at the crucial time - this is rarely the case with CRC, if they are in any doubt whatsoever about filling a position they will always inform us at the earliest opportunity.

We receive numerous telephone calls and emails, virtually every day from recruitment companies trying to offer their services, but we are proud to say that CRC are on Bernhard's shortlist of "preferred suppliers" and we look forward to continuing our working relationship.

Keep up the good work Ben
