Welcome!

I am delighted to be heading the 1st Edition of our C & S Steels Newsletter.

This year sees the Company achieving its 50th year in business, a milestone we are all very proud of. Reflecting back the Company has grown from very humble beginnings to becoming one of the country's leading Bright Drawers and Stockholders.

I would like to take this opportunity to thank our staff, many of whom have been with the Company for well over 20 years. In particular a further thank you to our customers, most of whom we have traded with over a very long period, indeed several from the beginning, and who without we would not have a business.

We now look forward to the future, to serving you and to fulfilling all your Bright and Black Steel Bar needs.

Russell Cook, Chairman

Success at Subcon 2014

In June of this year, C & S Steels attended the Subcon exhibition at the NEC in Birmingham for a second year running. Subcon is the UK's dedicated advanced manufacturing exhibition showcasing the British Manufacturing Industry. With Jaz Kaur and Scott Lowe from our Sales team, along with our Commercial Manager Bill Ware on hand to welcome visitors, the event has been a success!

After an initial lull on the first day, we enjoyed a busy and encouraging event as new customers came to visit and discuss opportunities with the C & S Steels team. It was also nice to see some of our existing customers who paid a visit to our stand.

Focusing on our 50th year in business, a short film was on display showing the "then and now" of the Company, and how things have changed in the industry. Goodie bags were also handed out, proving to be very popular!

Subcon has helped us reach out to the wider Steel community, and we look forward to seeing you there next year!

C & S Steels Feature in Express and Star

C & S Steels recently featured in the Express and Stars edition of 'The Manufacturer' on 17th June, with staff gathering together at our premises to mark the firm's first 50 years of business.

"I could not be more proud of reaching this milestone as a company" says Jonathan Cook, Managing Director. "We credit three things for our success; great service, quality products and the valued relationship between our customers, suppliers and staff."

As a manufacturer, we are able to produce specific sizes, lengths and sections to meet exact requirements. Our policy is to carry stock of Bright Drawn and Bright Turned steels available for immediate delivery. In addition we offer low minimum order quantities so you can order what you actually need, and we pride ourselves in understanding and delivering on your exact requirements.

"Our goal is to be our customers' most trusted and reliable source of supply for their Bright Bar requirements. To do this we rely heavily on the support of our customers, suppliers and the dedication of our staff, all of whom we would like to thank for their contribution to our first 50 years in business" concludes Jonathan.

Celebrating 50 Years of Steel Service

We are proud to announce that we have been serving the needs of Britain's steel industry for 50 years.

The Company, founded in 1964, is a family owned business now in its third generation. There have been many changes both within the industry as well as the Company throughout this time, which herald back to days when manufacturing was a key element in the country's output.

We are proud to be one of the few remaining Bright Drawers in the UK. This has been achieved through the support of our valued customers and suppliers, and of course our staff who have amassed over 830 years of service between them.

Having reached this milestone we will continue to focus our efforts on the ongoing development of our product range and service, and look forward to being part of what we believe is the beginning of a resurgence in Britain's manufacturing industry.

Thank you for supporting us on this journey as we continue on to the next 50 years!

Visit Us at Northern Manufacturing 2014

C & S Steels (Wolverhampton) Ltd will be exhibiting at this year's Northern Manufacturing & Electronics Exhibition, at Event City in Manchester on the 1st & 2nd October.

Over 300 leading Industry Suppliers will be at the 2014 show, with two key industrial events under one roof giving you the unique opportunity to see thousands of design, engineering, procurement and production solutions in a single visit.

Northern Manufacturing & Electronics is the biggest and most comprehensive industrial technology show in the North, bringing together an unrivalled selection of top-name companies from the UK, Europe and beyond. The exhibition gives you an unrivalled opportunity to see the very latest manufacturing technology and production techniques for your industry, along with offering free seminars including Improve your Manufacturing Performance, Real Time Analytics, Lean, CE Marking, Product Innovation and many more!

Contact us on 01902 404 771 for your **FREE** ticket to come and meet Bill Ware and Scott Lowe on Stand B27.

Apprentice of the Year Nominee - Ben Hayfield

Ben joined the C & S Steels team in December of last year as an Apprentice Electrician.

We are pleased to have been able to offer Ben this opportunity and as he continues to work closely with our Electrical and Maintenance Team, Ben is learning new skills and developing vital experience for his chosen career path.

We are proud to announce that Ben has recently passed his City & Guilds PAT Testing Qualification, and to recognise his excellent progress, has also been nominated for 'Apprentice of the Year' - a fantastic achievement!

We look forward to working with Ben throughout his apprenticeship, and beyond!
