SUBCONTRACTOR SAFETY PLAN CHECKLIST

Prior to beginning work on the project the subcontractor is to submit a **DETAILED SITE SPECIFIC SAFETY PLAN** to the Hoffman Project Superintendent. The Site Specific Safety Plan is to be specific, addressing anticipated/potential hazards that will be encountered while performing the contracted work. The plan is to identify the procedures and methods for controlling the project-specific safety hazards identified and **not referenced to your Safety Manual. DO NOT SEND YOUR SAFETY MANUAL.** Material Safety Data Sheets (MSDS) and an **INDEX** of the MSDS's are to be submitted to the Hoffman Project Superintendent when requested. When requested, copies of the subcontractor's safety manual/safety programs are to be submitted to the Superintendent. The below Safety Plan Checklist is to assist the subcontractor in identifying and developing a project – specific safety plan. This checklist is to be submitted to the Hoffman Purchasing department before beginning work.
