Brink Mobile. Where Technology Creates Convenience.

Seamlessly manage your digital menu off the same database as your POS and create ambassadors of your brand **at the same time.**

Consumers now expect your restaurant to integrate technology into their dining experience. Enhance your brand's social and mobile presence with PAR Brink POS built-in Online Ordering.

- Automatically scales from desktop to mobile on any browser.
- Orders placed online are automatically sent to the kitchen.
- Create a new stream of revenue, with a greater average check size.
- Increase efficiency and eliminate errors.

- Promote mobile ordering during non-peak hours to boost sales.
- No need to download an app.
- Your menu only needs to be set up once.
- Economically friendly compared to other vendors.

▶ ONLINE & MOBILE ORDERING BUILT INTO YOUR POS
This native, built-in feature allows you to setup your menu once, as your point of sale populates in real-time throughout all locations and channels for easy, enterprise-wide menu management.

▶ DELIGHT YOUR GUESTS
Today's consumers desire convenience from start to finish. Show them you care by eliminating their need to wait in line and allowing them to choose their pickup time based on their scheduling needs.

▶ SEAMLESS LOYALTY
Guest profiles are created automatically, linking loyalty to their online account. Past orders, reward promotions, and payment history are all stored i n one, convenient location to increase customer satisfaction.

▶ AVAILABLE ANYWHERE
Brink Mobile is available for use on smartphones, desktop computers and tablets.

▶ SEAMLESS KITCHEN COMMUNICATION
Orders placed online are automatically sent to the kitchen in current time, creating a seamless mobile to table experience.

▶ WE'RE PLANNING AHEAD
With Brink's open architecture and design, we're prepared to accommodate future ordering demands in the restaurant industry, so your POS system can adapt quickly and easily.

> **"WE ACCOMPLISHED DEPLOYMENT 3-4X FASTER THAN I WOULD HAVE ANTICIPATED. PAR'S HARDWARE LEGACY IS FOUNDATIONAL TO BRINK POS SOFTWARE'S RAPID AND SMOOTH SOFTWARE DEPLOYMENT."**
