HINTS & TIPS

Conservatory Blinds

- If your conservatory faces South then one of our high-tech roof blind fabrics will give you the best protection against solar gain
- Most people after the initial few weeks will leave their roof blinds closed for the majority of the time
- Opening just one or two roof blinds will allow in a lot of light whilst still protecting against the sun
- If you want to have ornaments, pictures or plants on your window sill - choose Perfect-Fit or INTU blinds to keep this space free and tidy
- Roof Blinds are generally better at keeping heat in during Winter and out during Summer
- Window Blinds are great for decor and adding privacy.

INTU CONSERVATORY Blinds

- Available as Pleated, Venetian or Roller blinds
- No holes or screws, easy to install
- Child safe
- Very neat and stylish
- Ideal for UPVC conservatories
- Extensive range of colours, styles and designs
