Trex[®]

The world's #1 decking brand, Trex[®] has been redefining outdoor living since 1996.

The secret is in the shell

Won't fade or stain, rot or split

Trex composite decking seamlessly combines form and function, offering a low maintenance yet high performance solution. With a 25-year limited residential warranty for added peace of mind, you can enjoy your deck for many years to come - even with minimal maintenance.

Trex LIMITED RESIDENTIAL	Trex LIMITED COMMERCIAL
25 YEAR WARRANTY	10 YEAR WARRANTY
+ 25 YEAR FADE & STAIN WARRANTY	+ 10 YEAR FADE & STAIN WARRANTY

*Trex® decking comes complete with a Trex® limited warranty. This limited warranty is supported directly by Trex Company LLC and covers the product for 25 years if used in a residential space, and 10 years in a commercial setting. Terms and conditions apply and these can be found in the Trex warranty document. Please contact us for full details.

A history of innovation

Changing the way the world lives outdoors

Since 1996 Trex has invented, defined and perfected the composite deck category, becoming the world's #1 brand of wood alternative decking products.

Never content to settle, Trex continues to make strides in outdoor living, melding innovation with environmental responsibility and beautiful form with function.

The company formed in 1996 through the buyout of a division of Mobil Corporation, and went public in 1999. Today, Trex offers the industry's widest array of high-performance composite products, which are available in more than 40 countries around the world.

1996: NEW IDEA

Trex develops innovative wood polymer composite made from plastic film and reclaimed wood otherwise headed for landfill.

2010: THE GAME-CHANGER

Trex Transcend creates revolutionary deck product, reinventing the decking industry.

EARLY 2000S: EVOLUTION

Trex composite decking adds new colours, styles and enhanced wood grains to the range.

NOW & NEXT: MORE

Trex evolves to offer a full outdoor living system with full range of complementary products.

Keeping it green

Looks good, does good

Trex decking offers a truly environmentally responsible choice. The entire line-up of high-performance Trex decking is made from more than 95 per cent recycled materials, including reclaimed sawdust from woodworking operations and recycled plastic film from commercial packaging and common household items.

In its 25-year history, Trex has never felled a single tree to make its deck boards

01

Trex was the first company in the wood-alternative decking industry to receive an International Code Council Evaluation Service 'SAVE Verification for Recycled Content'

02

The company uses some of the most earth-friendly manufacturing processes in the USA, reclaiming factory waste and eliminating the use of harmful chemicals

03

Every year Trex saves over 360,000 tonnes of wood scrap and plastic film from going to landfill

04

Leading wooden decking products manufactured from only the best slow-grown timber.

Beautiful by nature

The complete timber decking system

We've been manufacturing Arbordeck® softwood decking for over 25 years, so we truly are the decking experts.

The Arbordeck collection includes a wide range of options, from smooth and grooved softwood deck boards, enhanced grip boards, joists and a wide selection of balustrades: whether traditional or contemporary, Arbordeck has the decking products to suit.

A certified supply chain

Arbor Forest Products is a founder member of Forests Forever, the environmental voice of the timber industry, and we work closely with both FSC® (FSC-C013579) and PEFC™.

We're proud to be one of a handful of manufacturers to offer a full Chain of Custody Certified decking system which provides complete traceability, ensuring that all our products come from well-managed sources.

Designed for your lifestyle

Decking solutions as unique as you are

Decking is not only practical and cost-effective: well-designed decking can add real value to your lifestyle. Clever changes of board direction, mixing smooth and grooved boards, introducing multiple deck levels, creating shapes, careful

selection of balustrade style or the addition of design features such as rope and deck planters will create an individual design statement. The creative options are endless!

Years of enjoyment

Sustainability is more than using materials that are from a sustainable source, it's also providing a deck that will look good for years to come.

This is why we only use quality European timbers from northern latitudes, where the wood fibres offer a closely packed structure and increased strength and stability. We also treat all the softwood products in our Arbordeck range with an advanced preservative to keep your deck in top condition, even the components you don't see when your deck is complete.

Safety first

with low-slip enhanced grip decking

ArborGrip by Arbordeck® offers a range of solutions for areas requiring extra grip properties, such as steps and ramps, or even for a complete deck - particularly useful for high-traffic environments such as schools.

You can be assured of quality and longevity with all Arbordeck® enhanced grip decking, which comply with BS7979-2: 2002 by meeting the HSE's recommendation for low-slip potential.

The range is designed to stand the test of time. Softwood products, machined from high quality, slow-grown joinery timbers are treated to protect against rotting and insect attack.

Trex® Outdoor Kitchens™

Take your outdoor
space to the next level

Designed to seamlessly combine form and function, these high quality stainless steel cabinets complement the look and feel of the great outdoors and make the ideal addition to Trex composite decking.

Our kitchen cabinetry for outdoor living space uses a frameless style designed with plenty of storage and to accommodate outdoor kitchen appliances, regardless of brand – including grills, refrigerators, sinks, smokers, side burners, bar stations, kegerators, and wine coolers.

Trex kitchen components go beyond the norm of old-fashioned outdoor stone and stucco BBQs with unusable storage, making your outdoor space a truly one-of-a-kind outdoor entertainment experience.

-
- High-end stainless steel cabinets
 - Dozens of cabinet styles in hundreds of sizes
 - Weather-resilient powder-coated woodgrains and colours
 - Built to withstand harsh outdoor elements
 - Minimal maintenance for maximum enjoyment

Colours are as accurate as the print process will allow. Actual colours may vary from photos and variations may exist between individual boards and railing products. **Please view a sample before placing an order.**

Trex Signature® Railing

Effortless style, exceptional strength

Think sleek, contemporary aluminium deck rails that blend perfectly into your surroundings. Trex Signature® Railing combines effortless style with exceptional strength.

- Minimal and contemporary look
- Powder-coated aluminium
- Near-zero maintenance
- 25 year limited warranty supported by Trex Company
- Available in bronze, black or white

Stainless steel and glass railing system

A true design statement

Timeless design combined with contemporary clean lines. The ideal ArborRail choice when you want to make a statement.

- **Functionality, quality and style**
- **Quick and easy to install**
- **Suitable for indoor and outdoor use**
- **Almost unlimited options**

Easy aluminium glass railing system

Budget-friendly, high quality

Attractively priced and offered in three convenient ordering options: ready-to-install modules, and prefabricated or standard single components.

- Ready-to-install modules
- Anthracite Grey (RAL 7016 matt textured)
- Can be RAL matched to any other colour as a bespoke option
- Glass mounting is simple and straightforward

Fully frameless system

A masterclass in innovation

A fully frameless glass balustrade system that can work with thicker glass. The base channels include an innovative adjustable system which allows you to align and secure the glass with simple sliding and turning movements.

- **Align individual glass panels by up to 1.2° from the vertical**
- **The adjustable system gives direct feedback in the form of indication points and confirming 'clicks' when installed correctly**
- **Suitable for glass thicknesses of 12mm and 21.52mm**

ArborClad composite cladding

Durable alternative to timber cladding

ArborClad combines the warmth of wood with the low-maintenance and long-lasting benefits of composite. Available in four colours with an attractive wood-grain surface finish.

- Never needs to be sealed, stained or painted
- Splinter free and crack resistant
- Weather-resistant
- Outperforms wood alternatives on fade resistance
- No issues with warping
- No need to maintain or replace
- 15 year residential warranty*

Colours are as accurate as the print process will allow. Actual colours may vary from photos and variations may exist between individual boards. **Please view a sample before placing an order.**

*Manufacturer warranty is subject to terms and conditions, contact us for full details.

Added extras

Flexibility and guaranteed quality for every project.

Trex® RainEscape®

Create an indoor style living space outdoors

The troughs and downspouts are installed under the deck

These effectively drain water away from the deck

Bringing the comforts of the indoors, outdoors

Its unique design drains water away from your deck, keeping the area below dry and safe from the elements. The revolutionary system is easy to install on any new deck, it can even be installed on an existing deck by lifting the boards before installation.

Once the Trex® RainEscape® deck drainage system is installed, utilities such as electrical wiring and gas lines can be added, then covered with the ceiling of your choice.

- Expands your outdoor living space
- Protects the space below your deck from rain, sun and other elements
- Protects your floor joists from moisture
- Simple three-step installation process

Support systems

A sub-frame solution that's accessible, reliable and easy to work with

Fit and forget

The ArborJoist recycled plastic sub-frame system is the ideal partner for your deck. It provides a fit-for-purpose foundation that will last for many years, giving you peace of mind that your Trex deck will continue to look good and be maintenance free.

- Strong, durable and maintenance free
- Smooth splinter-free finish for easy handling and installation
- Weather-proof and decay resistant
- Environmentally friendly and recyclable
- 20 year guarantee*

*When installed in accordance with the manufacturers recommendations.

A versatile range of telescopically adjustable pedestals to achieve a perfectly level surface

ArborPad pedestal supports

Adjustable height support pedestals to lift decking off the sub-layer to improve drainage and reduce surface ponding and slip hazards. The support joist is held securely on the headpiece between positioning lugs with decking boards attached to create strong, stable decking systems.

- Options from 7mm - 380mm
- Ideal for paving slabs and all types of decking
- Suspended system
- Millimetre-precise adjustability
- Superior quality virgin fibre polypropylene
- Weight tolerance over one tonne
- Withstands sub-zero temperature

Joist and Beam tape

Accessible, reliable and easy to work with

Trex Protect Joist and Beam tape is a self-adhesive butyl tape designed to protect the top of your timber joist or beam. This prevents moisture ingress that can lead to joist rot and loosening of the deck screws and fasteners.

- Readily available
- Adequate strength
- Relatively low permeability to water
- Environmentally sustainable material
- Easy to use
- Value for money

The old way

Rain, snow and ice seep in around the fasteners, encouraging wood rot.

The smart way

Trex® Protect™ seals around all fasteners, inhibiting moisture.

End coat preservative for timbers cut on-site

A simple to use solution. Apply to cuts or notches made to softwood timber to maintain the integrity of the preservative treatment.

Trex® fixings

Flexibility for every project

The Trex® range of fixing accessories has been selected to provide flexibility for each and every project, with a choice of fixings to suit a range of different uses and applications. They are designed to match the superior performance of Trex® decking and to ensure an easy installation whether you decide on a traditional face fix or a screwless finish.

Universal Clip

Trex® Universal Fixing Clip offers a screwless finish, is quick and easy to install, and enables access to the subframe.

FastenMaster® TrapEase 3 Composite Deck Screw

The FastenMaster® Composite Deck Screw creates the ultimate finished look in composite decking boards, offering strip-out resistance, anti-fade resistance and a clean, finished look.

Starter Clip

Trex® Starter Clip offers a screwless finish, is quick and easy to install, and enables access to the subframe.

Trex® Router Tool

Trex® square-edge boards require traditional screws for installation. However, a Trex Hideaway groove cutter can be used to route a groove into the side of any traditional board to accommodate the hidden fastening system. This is ideal for starter boards and steps.

Starborn® Deckfast® Fascia System

These colour match screws are designed to accommodate the expansion and contraction that can occur with fascia boards. They are installed using the pre-drilling fascia tool.

Starborn® Pro Plug® Tool for Decking

PVC tool which drives screws to the correct depth without stripping the screw recess or damaging the deck board surface.

Starborn® Deckfast® Fascia Tool

The pre-drilling Deckfast® tool creates an over-sized hole for the fascia screw, so that the fascia board hangs from the screw and can expand and contract without putting a large amount of force on the fastener.

Starborn® Pro Plug® System for PVC & Composite

A superior easy-to-install plug fastening system for an invisible face fix with a timber substructure. The system includes epoxy coated carbon steel screws, a colour matched deck plug to provide an invisible finish and a PVC tool which drives screws to the correct depth without stripping the screw recess or damaging the deck board surface.

THE OUTDOOR LIVING COLLECTION IS EXCLUSIVELY DISTRIBUTED IN THE UK BY ARBOR FOREST PRODUCTS

Arbor Forest Products Ltd is an independently-owned, leading distributor of timber and timber related products; one of the largest independent timber importing businesses in the UK.

We operate from an 90-acre site in North Lincolnshire, supplying more than 400,000 cubic metres of quality timber to the building, DIY and construction trades through independent merchants each year. We are also the exclusive distributor of Trex®, the world's #1 composite decking brand.

Our company is proudly built on a passion for customer service and people.
