Window Fitters Mate

Your complete solution for Composite, Entrance and Residential Doors

As a completely independent company, Window Fitters Mate has the freedom to work with the best brands in the door market. This includes well-known names such as Halo, Rehau and Duraflex. These close relationships with the key players in the industry give us a breadth of range and depth of quality unrivalled in the UK.

With over a decade of door supply experience we also offer an extremely extensive range of glazing, panels and locks.

These are all from the highest quality manufacturers.

Alongside the benefits of our substantial purchasing power, WFM branches also provide you with instant access to everything you need for installation – from trims and screws to glues and mastic.

All our doors are bespoke and, because of our infrastructure and strong buying position within the industry, we offer a fast and efficient service.

Making the difference

By choosing Window Fitters Mate you benefit from our unbeatable service and support combined with our knowledge and expertise – all there to help you make the right choices.

You can always rely on us to provide a truly one-stop-shop with:

- Excellent customer service
- Consistent and flexible lead times
- Responsive after sales service
- Fast and convenient ordering
- Expert product advice and technical support
- Business and marketing support teams to help grow your business
- A national distribution network giving you local choice

Secured By Design*

This UK Police flagship initiative is about reducing burglary and crime in the UK. By combining minimum standards of physical security with well-tested principles of natural surveillance and defensible space, its objective is to 'design out crime'. The scheme promotes the use of security standards for a wide range of applications and products and achieves a reduction of crime risk by up to 75% on homes and commercial premises.

Composite Doors

Choose WFM for Composite Doors because...

... our composite doors are used throughout the construction industry in all types of buildings and replicate the look and feel of traditional timber.

Opening opportunities

Our composite doors are secure, hardwearing and thermally efficient. They are ideal for front and rear, communal entrance, shed and double doors - fire doors are also available. A wide range of styles includes solid doors, semi and fully glazed options. For long lasting colour and extra durability, choose Colourfusion or FlushGlaze.

Complete protection from the elements and intruders

Composite doors are increasingly in demand due to their thermal

foam core and improved security. Research shows that they provide the best insulation, maximizing energy efficiency and the Secured by Design feature can potentially reduce burglary by 50% and criminal damage by 25%.

They also come with a range of benefits that makes them a real alternative to other materials, including:

- Secured By Design*
- 10-year surface guarantee*
- BBA approved*
- Multi-point locking system for improved security

Composite Doors

The Ultimate Composite Door collection combines style, colour and security while adhering to all the latest building regulations. All the components, including the frame, provide a complete weather seal - they do not swell or expand in hot and cold weather, so they won't change with heat over time and you won't experience any draughts.

- Huge range of door styles, colours, cassettes and glazing options
- Secured by Design*
- Comprehensive 10-year guarantee on door and hardware
- 30-minute fire doors available
- A range of the best multi-point door locks
- Suited to stainless steel furniture
- Low wheelchair-friendly thresholds
- Eco friendly
- Easy to re-glaze, repair and maintain
- High insulation foam core
- Strong-through-colour GRP facing
- Triple weather-sealed
- Thermally efficient
- U-values in accordance with BS EN ISO 1077 – 1:2000
- Aluminium reinforced

The WFM Composite range:

Entrance Doors
Back Doors
Fire Doors

Composite Doors ancillaries:

- 7 Colours, 17 Glazing Configurations & 22 Glass Ranges
- ERA and Yale electronic handle sets available
- A choice of three lock types, with 12-months' warranty
- ERA Vectis Plus multi-point door lock
- ERA MPL
- Winkhaus AV2 Multipoint Autolock

3 reasons to go Composite

- 1 - 67% of all burglars try to enter through a door.
- 2 - Up to 15% of heat lost in a home is through ill-fitting external doors.
- 3 - A range of traditional door styles to suit most tastes.

Solid Doors

With a 48mm thick non-foam solid core, these are one of the most impenetrable doors in the market today.

- Moulded and richly grained surface imitates the look and feel of timber
- Solid engineered timber core and structure
- Available in a range of colours and wood grains with white and wood grain frames
- Fitted with Anti-Bump, Anti-Snap, Drill Resistant, Saw Resistant, Anti-Pick high security cylinder door locks
- Guaranteed not to warp, twist or flake
- BBA approved
- Secured by Design
- High performance outer frame – 70mm lead free and reinforced with thermally efficient recycled plastic
- Virtually zero maintenance

- ERA & Yale electronic handle sets available
- Fire doors available (30-minute fire rated)
- Superior heat insulation
- Complete weather seal, eliminating draughts and heat loss
- Glazing options
- Guaranteed not to warp, twist or flake
- Premier – PAS 23/24 standards for enhanced security

Panel Doors

Choose WFM for Panel Doors because...

... our door panels are flame retardant made from high quality PVCu which achieves a Class 1 rating for surface spread of flame, plus extensive door style combinations and matching side panels.

Opening opportunities

Our panel door ranges are carefully designed to compliment and enhance your projects, and will maintain their good looks for many years to come.

The range features a comprehensive selection of moulded door panel designs combining with a range of

decorative glass that is both innovative and classically stylish which you will find both practical and aesthetically pleasing. This choice incorporates acrylic liquid lead, traditional hand-crafted lead, genuine glass bevels and the latest Crystal Resin technology, with extensive door style combinations available all with matching side panels.

Panel Doors

Our products are subject to rigorous performance testing to ensure our consistent high quality standards are maintained and your assurance is guaranteed by a full ten-year warranty. With UV stability our door panels ensure that the colour will be maintained despite exposure to the severest weather conditions and a high-density core material provides excellent thermal and acoustic values.

All glazing complies with current building regulation requirements and includes toughened safety glass as standard. An obscure glass may be specified with all designs, which provide a level of obscurity within their individual design.

All door panels are available in a choice of White or foiled finishes including Mahogany, Light Oak or Rosewood matched to your profile. On our foiled finishes the grain runs vertically on doors and side panels.

Fusion

Coloured glass tiles, bring the stained glass look right up to date with a modern twist.

Bevelled Glass

Authentic antique lead and bevelled glass designs will compliment any style of home. We offer an option of Bevelled Glass and Resin design.

Inverted Mouldings

Our inverted mouldings give you all the style and elegance of a timber style door.

Decorative Glass

Bring individuality to your home with our wide range of decorative glass designs, styles and colours.

Sandblasted

Elegant and tasteful solution to suit any home, from a Georgian town house to a modern flat.

Standard Glass

A choice of Georgian bars, diamonds or square leadwork are a popular choice.

The WFM range:

Panel Doors

Side Panels

Residential Doors

Choose WFM for Residential Doors because...

... our high performance range of residential doors includes Patio, French, Sliding, Bifold and Multifold options.

Opening opportunities

The products we supply combine aesthetic appeal with increased security and weather resistance.

Choose from our comprehensive choice of PVCu Patio Doors (both in-line and tilt & slide) and French Doors with both panel and glazing designs, including decorative and privacy glass.

- Open-in and open-out options
- Low level aluminium threshold

- Wheelchair access threshold option (Part M compliant)
- Tested to PAS 023/024
- Compatible with a wide range of hardware and door furniture

You can also benefit from our superb range of Bi-Fold doors. Design options range from 3-fold doors up to a 6-door folding system for a great alternative to in-line Patio or French doors.

Patio / Tilt & Slide Doors

Our wide range of Patio doors allows natural light into any home, bringing the outside in. Suitable for conservatories** & porches the range provides the highest standards of aesthetic appearance, durability, and security by incorporating the latest standards in hardware design.

- 2, 3 and 4 pane options, single or double opening
- High security: anti-jacking system, 4 point hooklock and 1 piece keep
- Reinforced low maintenance PVCu frames

- Excellent weather protection & heat conservation
- Slim stepped 70mm outerframe for minimal plaster cutback*
- Multi-chambered profile for greater thermal insulation*
- Low-line gaskets extruded to sash frame for larger visible glass area
- Stainless steel easy glide track system*
- Concealed drainage and double wool piling for improved draught proofing
- Handles available - gold, chrome, white & black

- Internal slider as standard - external optional
- Night vent facility available
- Available with Featured or Chamfered bead*
- Accepts full range of safety glazing

* Subject to manufacturer

** Subject to structural load bearing checks

The WFM range:

Patio / Tilt & Slide
French
Bifold

French Doors

French doors are an attractive, practical way to let in more light and allow easy access to the outside. They also change the way a room functions - from warm and cosy in the winter to light and open in the summer.

Our French doors are:

- Available in traditional timber - softwood, hardwood and re engineered
- Available in virtually maintenance-free PVCu for noise reduction and low maintenance
- Double-glazed and fully sealed
- Tailor-made to suit your project
- Available in a variety of finishes, styles and colours
- Safe and secure
- Energy efficient
- Low threshold options for Part M compliance available

Bifold doors

An elegant creator of space and potential with precision engineering and high performance components combine to deliver doors of matchless quality. Ideal for conservatories or extensions leading into the garden, our range of Bifold doors have a number of benefits:

- Smooth easy opening
- Door sashes fold back fully to optimize the opening area
- Suitable alternative to in-line patio or French doors
- Internally glazed single leg bead
- Chamfered edge feature
- No outer profile required
- Inward opening
- Secured by Design*
- 20-year guarantee**
- Superior thermal efficiency and fully weather rated by British Standards
- 48-hour manufacturing lead time
- Inward and outward options
- 150 different configurations
- Up to 8 door fold, corner & bay options available
- 8 point locking system option
- Glide on 4 wheel trolley mechanism
- Bespoke 'finger safe' gasket
- Low maintenance
- Low threshold options for Part M compliance available

Corner & Bay options

There are instances where a conventional door design is perfectly suitable but in the case that your room layout is slightly more unusual, we will have a configuration to suit your room – whether it be a corner set of doors at a 90° angle or even a bay set, your options are virtually limitless. Turn a dark corner into a feature that floods the room with natural light to make even more of the living space.

Fire Doors

Choose WFM for Fire Doors because...

... our Fire Doors combine form and function, providing the highest levels of protection with great looks.

Opening opportunities

WFM's Fire Doors are available in the same single door designs as the standard Endurance door, either as an ornate glazed door or as a solid unglazed door.

Manufactured with the same solid core, outer skins and 70mm frame as the standard Endurance door, they have fire retardant additions that give the range its 30-minute fire rating. Tested to BS EN1634-1: 2008, the Endurance range has withstood more rigorous testing than is necessary to achieve a 30-minute fire certificate. They can also be supplied with the standard Endurance door threshold and sill combinations.

The solid 45mm Kerto "Q" laminated veneered solid lumber core has been tested to BS476: part 22 1987, accredited with BBA00/3717 and compliant with ISO9001 & ISO2000.

The doors come with a choice of five different obscure glasses:

- Cotswold
- Everglade
- Flemish
- Stippolite
- Sycamore

Lock and seal

The sealed units are secured into the door leaf using concealed galvanized steel clips to both the internal and external faces. Intumescent glazing sealant is then applied before the glazing cassettes are fitted.

The doors use a Winkhaus AV2 multi point lock in either a manual version or the AV2E electronic version. The frame for either lock is fitted with three adjustable keeps.

AV2 Manual

Automatic latching system with hook bolts to the top and bottom sections, together with a centre deadbolt and latch.

Rocal

Accessories and Ancillaries

Choose WFM for ancillaries because...

... we have all the ancillaries you need, from cellular fixings and cleaners to tools and accessories.

AV2E Electronic

Automatic latching system with hook bolts to the top and bottom sections, together with a centre latch.

Handles

- Conform to BS7412 clause 4; die cast alloy to BSEN 12844, steel parts to BS970 part 1
- Salt spray tested to withstand 480hrs (BS EN 1670: class 5)
- Letter-plates, handles and urn knockers are available in the standard colour choices

The visual appeal of this attractive range will keep your customers happy and, more importantly, keep them safe.

- Mastic
- Fan Lights
- Side Screens
- Knockers
- Letter plates
- Locks and Barrels
- Cellular (architraves, trims, flatboards, flexi angles)
