**WASTE HEAT &
COMBINATION BOILERS**

BESPOKE SOLUTIONS IN WASTE HEAT BOILERS

- Produce steam or hot water from waste heat
- Suitable for many applications including CHP
- Individually designed to obtain peak performance with minimum pressure drop
 - Individually built in the UK using highest quality engineering standards
 - Unique high efficiency X-ID tubing enables a more compact footprint
- Flue gas economisers can be incorporated for maximum heat utilisation where required
 - Optional supplementary firing available
- Range of outputs and temperatures, working pressures up to 30 bar g

ALL BOILERS
100%
MANUFACTURED
IN THE UK
