

High Performance Supply Chain Insulation For Protection of Temperature Sensitive Freight

NEXT
GENERATION

**HIGH
PERFORMANCE**

THERMAL
PROTECTION

INNOVATIVE MULTI LAYER INSULATION

Key Features

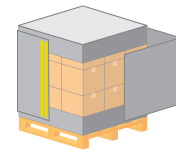

-  Compressible
-  Reduce Temperature Exchange
-  High Reflective Performance
-  Freeze Protection
-  Water Resistant
-  Security/Theft Protection

19 Layer Multi Composite Insulation

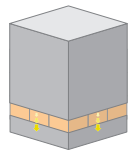

- Insulation designed around the needs of the logistics industry
- Ideal balance between thermal performance, weight and cost
- Available in various formats
- Outer bubble foil ensures effective insulation at edges

Roll

Kit

Pre-Formed

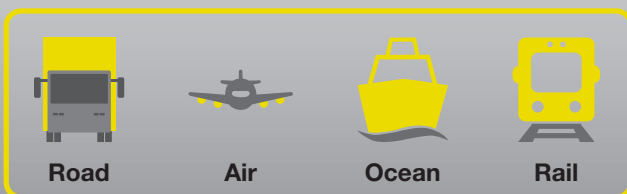

Compressible

The unique composition of SilverQuilt™ makes it a high performing insulation for the 15-25°C range while maintaining its compressible and flexible properties. This makes applying the cover much easier than similar performing products available in the market.

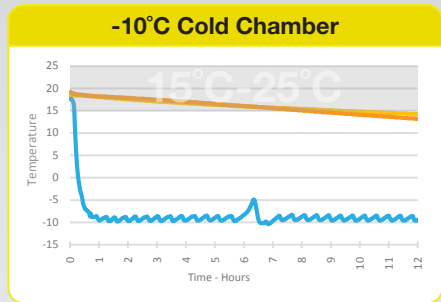

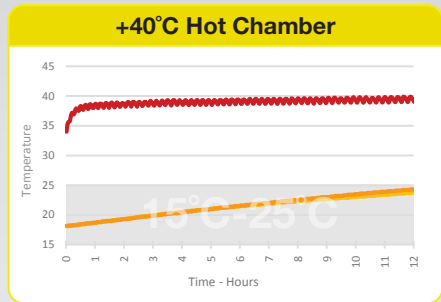

Multimodal

Special designed to work at optimum levels across the full range of transport modes across the globe.

High Performance Supply Chain Insulation For Protection of Temperature Sensitive Freight

Keeping freight within temperature limits in high risk and uncontrolled supply chain lanes

Primary Protection

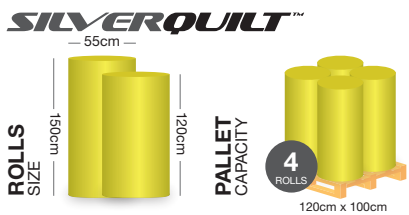

15-25°C

Secondary Protection

2-8°C

Cost Savings

Not only does SilverQuilt™ have superb performance, the innovative composition™ provides logistic cost and storage benefits through the delivery process in comparison to popular alternatives, while not compromising on performance.

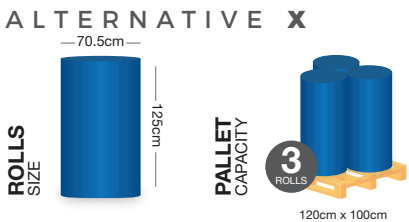

CONTAINER 40FT CAPACITY

160 Rolls (non palletised)

MEGA TRUCK CAPACITY

220 Rolls (non palletised)

CONTAINER 40FT CAPACITY

90 Rolls (non palletised)

MEGA TRUCK CAPACITY

132 Rolls (non palletised)
