# INVITATION

In May 2020, the 30th Conference of the European Wound Management Association EWMA will be held in London, one of the world's most-visited cities and we are delighted to be partnering with the Tissue Viability Society in the UK who will be celebrating their 40th Anniversary in 2020.

Theme of the EWMA 2020 Conference:

## Enhancing Wound Care Quality: Global Collaboration for Local Action

- Collaboration across professions, organisations and nations
- Innovation locally, nationally and internationally
- Local action to improve national and international wound care

Safe, high-quality healthcare improves the health and wellbeing of populations and nations. Improving the quality of wound care requires shared learning, research and innovation with people from different parts of the world. The EWMA Conference will focus on how global collaboration in wound care can deliver cost-effective, high-quality wound care at a local level.

We look forward to welcoming you to London!

## WHY ATTEND THE EWMA CONFERENCE?

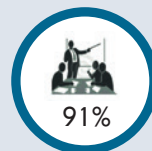

The EWMA Conference is organised in cooperation with TVS and offers high-level scientific presentations, networking activities and an excellent opportunity to exchange knowledge and experience with international colleagues.

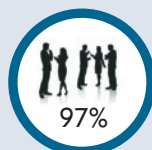

State that the conference met their expectations or was better than expected.

Gained new knowledge, valuable information and contacts from the exhibiting companies.

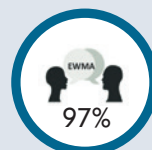

Described the content of the sessions as either 'good' or 'excellent'.

Networked with other participants during the conference.

Think the conference was relevant to their work.

Would recommend the EWMA Conference to others.

## CME CREDITS (EUROPEAN CONTINUED MEDICAL EDUCATIONAL CREDITS)

An application has been made to the EACCME for CME accreditation of this event.

## LONDON: AN INTERNATIONAL CAPITAL OF MEDICINE

Get lost in London's rich medical history. Visit its most prominent medical museums and collections, such as the Science Museum, the Royal College of Physicians, the Florence Nightingale Museum and many more.

Encounter the people and places that have made this city a home of cures for over 1000 years.

Visit our website for inspiring medical tours, [ewma2020.org](http://ewma2020.org) (go to General Information/Guide to London).

# PRELIMINARY PROGRAMME

## KEY SESSIONS

The programme features a mixture of new topics important to the wound community. Sessions will deal with advancement of education and research in relation to epidemiology, pathology, diagnosis, prevention and the management of wounds.

- Opening Key Session: Enhancing Wound Care Quality: Global Collaboration for Local Action
- Burns & Trauma
- Managing and Preventing Birth-Related Wounds and Post-Caesarean Section Infections
- New Concepts in Phlebology and Vascular Medicine
- New Technologies in Wound Healing
- Person-Centred Care
- Surgical Interventions for Lymphedema and Chronic Venous Insufficiency
- Skin Tears and Frail Skin in Patients with Anticoagulants

## FOCUS SESSIONS

A focus session is an opportunity to go into depth with a topic.

- Advanced Therapies
- Care Bundles and Quality Improvement
- Critical Review of Technologies in Wounds and their Impact on Patient Outcomes, Organisation of Care and Economic Outcomes
- Device-Related Injuries in Wound Care
- Efficient Treatment of Skin Cancer Wounds with Mohs Surgery
- Overcoming Barriers to Teamwork in Wound Healing
- Pitfalls and Successes in Wound Care
- Skin Necrosis in Wounds
- Successful Treatment of Mixed Venous and Arterial Ulcers
- Surgical Site Infection Trials
- Story Telling in Wound Healing
- Wound Assessment – Do you see what I see?
- Wound Healing and Lifestyle

## STREAMS

Full-day streams are particularly popular among EWMA Conference delegates, as they foster in-depth discussions.

- Debridement
- Diabetic Foot
- Infection, Prevention & Control
- Pressure Ulcer Prevention
- Tissue Viability Society (TVS) Stream
- Wounds Research Network (WRn) Stream

## WORKSHOPS

EWMA Workshops are typically held in a smaller setting. They are interactive and give participants the opportunity to elaborate on particular aspects of the themes.

- Biofilm
- Compression Therapy
- Diabetic Foot – Assessments, Offloading and Footwear
- Debridement and After Debridement
- Galenics in Skin Care
- How to Perform Punch Grafting
- How to Read a Paper: Understanding the Basics
- Novel Trial Designs in Wounds
- What is Your Diagnosis?

## MEET THE EXPERTS

A number of Meet the Experts sessions will take place during EWMA 2020. Participants are invited to listen to and discuss with leading experts in an informal setting.

## GUEST SESSIONS

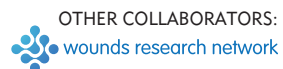

EWMA invites a number of organisations to facilitate a guest session at EWMA 2020. This serves to increase scientific cooperation and networking with organisations active in thematic issues related to wound healing and management.
