

Leisure Designed For Life

Whether you are responsible for a leisure centre, gym, hotel, holiday park or pool this section is perfect for you.

Whatever your requirements in changing room furniture or access control you are certain to find the solution within the Helmsman product range supplied by Davian Systems Ltd.

We offer a complete package, from design through project management to skilled manufacture and installation to give you complete peace of mind.

Please do not hesitate to contact us, we would be happy to visit and show you our extensive range.

So with our extensive product range and our integrated design service we can offer customers real benefits, which include enhancing the changing room environments, more efficient use of space and reduced maintenance and replacement costs. Our sales team will assist with layout planning and design, with skilled engineers who install to your requirement and our Service Team works to ensure lifetime value for all our products.

System 2000 – Overview

System 2000 provides a package where good looks can be achieved within a budget, without sacrificing strength and security. The package is suitable for both wet or dry area use.

Features:

Frame and body assembly: unique extruded doorframe uprights are formed from heavy gauge aluminium. Rounded profile allows easy bag deposit and removal.

Doors manufactured from Solid Grade Laminate (SGL).

Curved single piece body shell is hygienic and user-friendly with no sharp edges or dirt trap corners.

Mouldings: high quality polypropylene top, shelf, and base have lattice structure for maximum strength and security.

Hinges: strong, heavy-duty, full-length hinge assembly built into locker frame provides a high level of security. Plastic shrouding maintains tidy appearance while automatic door closure reduces risk of injuries.

Available with 300mm & 400mm wide door options, and available up to 600mm wide & 600mm deep.

Lock Detail:

- Secure, coin-operated locks, and RFID proximity lock option.
- Accepting 20p, 50p, £1, £2, tokens and Euro coinage.
- Coin-collect or refund.
- Master keyed.
- Available with high quality cam lock (non-coin).
- Optional removable cylinder.
- 'Hook bolt' design gives engagement into doorframe providing additional security.
- Half-height unit available, ideal for special needs.
- Locker produced with 'plant on' doors fitted to a high specification aluminium doorframe giving a clean uninterrupted wall of colour.

System 2200 – Overview

System 2200 is suitable for wet or dry use with extruded anodised aluminium doorframe uprights and a single piece curved aluminium body. The "inset" style door provides a visual contrast to the frame structure.

End Panels can be offered as:

- a) Solid grade laminate material available in door colour.
- b) Anodised aluminium.
- c) End panels are available as singles to suit the side of single runs of lockers. Doubles are available in solid grade laminate only for lockers positioned back to back. Two single end panels are used for back-to-back lockers requiring anodised aluminium end panels. All necessary fixings supplied.

Wristbands: Several options are available – contact our Sales Department for details.

Lock detail:

- Secure, coin-operated locks coin-collect or refund.
- Accepting 20p, 50p, £1, £2, tokens and Euro coinage.
- Master keyed.
- Available with high quality cam locks (non-coin).
- Optional removable lock cylinder.
- 'Hook bolt' design gives engagement into doorframe providing additional security.
- Half-height unit available, that is ideal for special needs.
- Locker produced with inset doors fitted in to a high specification aluminium doorframe giving a very high level of strength and security.
