

Three phase voltage optimisation

Reducing energy, saving money

Benefits

- ⚡ Saves money on your electricity bills
- ⚡ Reduces energy waste and carbon footprint
- ⚡ Increases the life of electrical appliances
- ⚡ Improves the supply quality to your building
- ⚡ Works well with solar PV and alternative energy sources
- ⚡ Cost savings are immediate

Features

- ⚡ Standard units available 100Amp, 200Amp, 300Amp and 400Amp
- ⚡ Multi tap transformers – allows adjustments at installation to suit the sites' voltage
- ⚡ Basic and intelligent ranges available
