

metroSTOR PBC Recycling Centre

**metroSTOR Waste & Recycling Storage Products**

metroSTOR waste & recycling storage facilities are an essential tool in the control of residential waste-streams; increasing recycling rates and eliminating cross contamination while raising the profile of our communities with proven reductions in litter, fly-tipping and anti-social behaviour. An essential reduction in fire risk is achieved with metroSTOR designed to secure waste and recycling bins away from dwellings ensuring that fire is contained in the event of a bin being set alight.

**metroSTOR PBC Recycling Centre**

Specified for residential communities in street scene applications where the management of waste-streams is closely controlled by site management, metroSTOR PBC provides the central structure making this task as easy as possible for users and site staff. The 4 wheeled bins can be stored with lids open or closed at the discretion of site management, assisted by clear recycling signage to unit doors.

metroSTOR PBC is designed with raised central wall and end enclosure sections that offer protection against wind-blown litter while enabling access to the bins from both sides. The centrally supported roof section ensures that clear lines of sight are maintained through the structure.

In standard configuration, the metroSTOR PBC roof section is slatted in design offering protection against the elements for users while allowing ease of maintenance and circulation of airflow.

- 

**Street Scene Design Ready**  
Clean design style without compromising function to compliment street scene architecture.
- 

**Clear Lines of Sight**  
metroSTOR PBC panel frame design allows great flexibility in cladding density without compromising structural integrity.
- 

**Cladding & Finishes**  
Factory fitted panel systems offer a wide choice of durable materials from functional to architectural to suit your project application.
- 

**Durable Construction**  
metroSTOR products are manufactured to ISO9001:2008, ISO14001 and BS EN 1090 CE Marking designed and manufactured for long life. The all-steel frame is Hot-Dip Galvanised to BS EN 1461.
- 

**Heavy Duty Components**  
metroSTOR door hinge and frame design is the result of exhaustive product testing in challenging urban environments.
- 

**Avoid Waste Stream Contamination**  
Clear definition of specific waste and recycling streams; cardboard only, bottles only, mixed recyclables only, general waste.

Can't see the size or layout you need here? Extensive custom build dimensions and configurations are available for all metroSTOR products. Please contact our sales team on 01227 200404 or email enquiries@streetspacegroup.co.uk for further information.  
PLEASE NOTE: Product dimensions given are maximum external unit dimensions correct at time of publishing July 2019. All product dimensions are in millimetres and capacities in litres and do not form any part of the contract.

**ForestPanel™**

- FSC European Redwood
- Pressure Treatment
- Light Green Finish
- 100mm PSE Plank

**ForestPanel™ Colour**

- FSC European Redwood
- Pressure Treatment
- Coloured Woodstain System
- 100mm PSE Plank

**ForestPanel™ FR**

- FSC European Redwood
- Fire Retardant Coating
- Clear Finish
- 100mm PSE Plank

**ForestPanel™ Cedar**

- FSC Western Red Cedar
- Natural Finish
- 100mm PSE Plank

**ForestPanel™ Iroko**

- FSC Iroko
- Oiled Finish
- 70mm PSE Plank

**Tuffplas™ Black**

- HDPE 100% Recycled
- Black Woodgrain Finish
- 100mm SE Plank

**Tuffplas™ Brown**

- HDPE 100% Recycled
- Brown Woodgrain Finish
- 100mm SE Plank

**Tuffplas™ Grey**

- HDPE 100% Recycled
- Grey Woodgrain Finish
- 100mm SE Plank

**Tuffplas™ Green**

- HDPE 100% Recycled
- Green Woodgrain Finish
- 100mm SE Plank

**Firenze™ Black**

- SSAB Steel Panel
- Plastisol P200® Coating
- Black Finish

**Firenze™ Grey**

- SSAB Steel Panel
- Plastisol P200® Coating
- Goosewing Grey Finish

**Firenze™ Freestyle**

- Galvanised Steel Panel
- PPC Powder Coat Finish
- R5-T8 Perforated Pattern
- Custom Design

**Firenze™ Design Wrap**

- Galvanised Steel Panel
- SAV Graphic Wrap Finish
- Custom Design

**Latch Only**

- Self-Latching Daybolt
- No Bolt Lock

**Latch + Eurocylinder Key Lock**

- Self-Latching Daybolt
- Eurocylinder Key-operated Self-Latching Bolt Lock

**Latch + Triangle Key Lock**

- Self-Latching Daybolt
- Triangle Key-operated Self-Latching Bolt Lock

**Latch + FB2 Key Lock**

- Self-Latching Daybolt
- FB2 Lever Key-operated Self-Latching Bolt Lock

**Latch + Code Secure Lock**

- Code Secured Entrance
- Mechanical Code Lock

**Slide Bolt + Padlock**

- Self-Latching Daybolt
- Integral Slide Bolt / Handle with Padlock Provision

**Please Note:** While every effort is made to ensure product information is accurate and informative we advise that this is used for reference only. Street-space Ltd reserve the right to change the design, material and specification of metroSTOR products at any time.

**Fire Safety**

metroSTOR products can be specified to meet relevant fire risk assessment criteria. Our fire retardant options for TGV and sheet type cladding have a Fire-board MgO internal liner with either treated SW timber, HDPE 100% recycled plastic or coated steel panel outer to provide Euro-class A1, UK class 0 reaction to fire. The panels are manufactured from materials of limited combustibility throughout to provide 30 minutes fire resistance to BS 476. Where fire retardant properties are required for an open-spaced cladding type, SE timber plank can be specified with an HR Prof treatment process providing a Euro-class B, UK class 0 Reaction to Fire classification.

metroSTOR is the leading outdoor storage system for today's built environment, delivering social, economic and environmental value. Combining superb aesthetics with durability for the toughest environments, metroSTOR offers a configurable, modular product system to comprehensively address the challenges of outdoor storage; from waste and recycling bins, mobility scooters and cycles to household items, site equipment and service plant enclosures.

#### Mobility Scooters

metroSTOR PSL, PSM and PSH provide space-efficient, mobility scooter storage with user-friendly integral battery charging, making for safer communal areas while helping users to maintain their independence.

#### Waste & Recycling

metroSTOR PBL, PBM, PBE, PBC and PBH products help control waste-streams with robust enclosures and stores for all standard bin sizes. Their smart appearance and unobtrusive physical profile enable recycling centres to be located in spaces that may not have previously been considered.

#### Household Items & Site Storage

metroSTOR PTL, PTM and PTH are tough, versatile products providing attractive, secure storage for equipment and bulky items in an unobtrusive design. Highly configurable for capacity, layout, access, security and finishes, the proven modular system makes for ease of specification.

#### Cycles & Motorcycles

metroSTOR PCL, PCM and PCH for custom cycle parking solutions with the efficiency of modular build from transit shelters to cycle hubs. Stands, racks and carousels can all be specified with a number of options available for roofing, enclosure and layout type, finishes and access control.

#### Service Plant & Industrial

metroSTOR Custom Build is driven by the inherent design flexibility of our products, working in partnership with client input informing the design process. This enables the development and delivery of effective solutions, achieving a consistent design aesthetic.
