OneScreen Annotate

Interactive whiteboard and annotation software

You won't think of brainstorming without it again.

Easy tools you actually use: pens, erasers, text recognition, search engine assignment and more.

Record your work session content in multiple formats, reopen, rework and resave anytime.

Shared whiteboard with up to 50 users from across the globe or in the room.

Personalize your workspace and toolbar and enjoy simple drag-and-drop navigation.

On-demand, free Screen Skills Guru support and training via audio, video, chat, email, or phone.
