

Our Referral Partners receive £500
on average per introduction

We Should Work Together

Referral Partners introduce NewZapp to people they work with. People who are looking to start or get more from their email marketing.

Our partner rewards have no limits or strings attached. On average we pay £500 for every new customer.

Referral Partner Program

Do you know anyone who needs an email marketing provider you can both trust?

You may work with a company who is:

- ✓ Unhappy with their current supplier
- ✓ Frustrated with how their campaigns look
- ✓ Disappointed with their response rates
- ✓ Lost without expert support & guidance

An introduction to NewZapp solves these problems and more.

Improving your customer relationship whilst earning substantial rewards.

“ We’ve been working closely with our NewZapp referral partners for years and have built a great relationship with them.

It’s thanks to their success we’re looking to open up the Referral Partner Program to all companies without restriction.

We don’t believe our partners should reach lofty milestones before rewarding them.

We pay in full, from the moment they start.
