Heritage Collection

The Heritage Collection offers a selection of colourful film lead, resin and sandblasted opaque designs with a modern twist: they have been cleverly produced via specialist colour film or with a computer generated resin application.

Door Maintenance

Keep your door looking great for longer

Your new PVC-U door is extremely low maintenance and is very easy to clean. How often will depend on where you live. For instance, a coastal or industrialised location, or near a busy road, may mean cleaning is required a little more often.

We recommend the following to help you get the very best from your PVC-U door:

Cleaning your door

- Wash the door and door frame with warm soapy water and a soft, lint-free cloth to remove grime and atmospheric deposits.
- Never use a pressure washer or steam cleaner.
- Stubborn marks on the door frame may need to be tackled with a specialised PVC cleaner but please ensure you read the cleaning guidelines carefully so as to ensure suitability.
- Under no circumstances should you use any solvent based or abrasive cleaners and avoid the use of any adhesives or tack for temporary fixing i.e. For seasonal or other decorations.

With a little care and attention, your PVC-U door should continue to look great for years to come!

Maintaining your door

- Once every six months or so, apply a little light engineering oil (such as 3 in 1 oil) on all moving parts of the lock, cylinder and hinges.
- We also recommend that you help protect your door from possible natural thermal distortion by engaging the locking points by simply pulling up the handle each time you shut the door.

Collection

PVC-U Doors *Collection*

As the UK's leading PVC-U door panel manufacturer, we ensure that our PVC-U Door Panel Collection is manufactured to the highest standards and offers an unparalleled choice of styles, colours and glazing options that are designed to complement any home.

Why Choose a PVC-U Door?

Our high quality door panels are manufactured using advanced technology, which forms and bonds two PVC-U skins to a variety of materials and reinforcing options, so as to ensure the integrity of the panel in all elements.

Affordable

Utilising Vacuum Forming technology, each PVC-U door panel is manufactured to exacting standards and hand finished to suit your style and budget.

Highly Customisable

Providing a vast number of styles, glass designs and colours to choose from, we promise that no matter the age, style or aesthetic of your home, we can find the perfect PVC-U front door for you.

Durable

PVC-U is one of the most versatile options available. PVC-U is impervious to water, is colour stable and is resistant to everyday knocks and scratches.

Low Maintenance

PVC-U doors require little to no maintenance, just an occasional wipe down with warm, soapy water and a lint-free cloth will keep your door looking great for years to come. For further details see page 26.

Environmentally Friendly

We're committed to minimising our environmental impact, which is why our PVC-U door panels feature a fire retardant core material with no CFCs or HFCs and are non toxic and totally recyclable. In addition, manufacturing waste materials are disposed of responsibly wherever possible.

Thermally Efficient

Protected by Heat Reflective Technology, our PVC-U door panels have a heat reflective skin which, when combined with an extra high density core, provides excellent insulation. This means your door does more than just look great; it also helps block noise and heat from entering or escaping your home.

Classic Collection

The Classic Collection features timeless styles available in Clear, Diamond Lead and Georgian Bar glass designs, all enhanced with decorative patterned or clear backing glass options.
