**With today's compensation culture there is a real possibility that at some time your business will become a victim of an insurance claim.**

**Whilst many are genuine, unfortunately large proportions of them are exaggerated. People are all too aware that if they are injured, they could get compensated regardless of where the blame lies.**

*"No problem - I'm well insured," I hear you say.*

But insurance companies will do all they can to avoid paying in the event of a claim. And, if you haven't got the correct health and safety policies and documentation in place you might as well not be insured, because they won't pay.

**THE WILKINS SAFETY GROUP can provide you with the peace of mind of knowing that you will be strongly defended by an expert in health and safety matters.**

**We will make certain that you have all the correct safe working practices in place to ensure that your insurance company will be satisfied in the event of a claim against you or your company.**
