THE OPEN COLLEGE OF EQUINE STUDIES

EQUINE VETERINARY NURSING

ENROLMENT FORM GUIDELINES

SECTION 1: PERSONAL DETAILS

Details of any special assessment needs / disability

Please outline any learning difficulties, disability or other special assessment needs you require.

Students with learning difficulties, disabilities and special needs are assessed on an individual basis and the likely impact of the disability on the student's ability to successfully complete the programme of study is evaluated. This evaluation considers the health and safety of the student, and those working with the student, in the range of situations the student likely to be encountered during the programme.

When assessing admission for students with physical or sensory disabilities health and safety is considered. Every reasonably practicable step that can be taken to ensure health and safety will be taken to ensure the student can successfully complete the programme. Where health and safety could be compromised in a situation, an alternative teaching or assessment method is used, e.g. simulation if possible.

Certain physical disabilities may, for health and safety reasons, preclude attainment of learning outcomes within certain elements of a programme. In these circumstances, following an assessment of the student's personal plans and career/learning goals, and the extent to which the learning outcomes could or could not be achieved, alternative modules or an alternative programme will be recommended.

SECTION 2: COURSE ENTRY REQUIREMENTS

- Please tick the box/es next to the criteria you meet for your chosen course only.
- If further previous qualification detail is requested, please note this in the area provided. E.g. BTEC Equine Nursing Technician
- You MUST provide copies of all qualifications held.

City and Guilds Level 3 Diploma in Veterinary Nursing (Equine Pathway)

Practice Principal Name

Please note the full name of the person responsible

Practice Principal Email

Note the direct email address - please do not give the Practice's generic email address

Is the Practice an approved RCVS Training Practice (TP)?

- To ensure practices are able to provide a suitable training environment they must be approved by the Royal College of Veterinary Surgeons as a Training Practice (TP).
- If a practice is not already a TP TOCES can arrange the approval process. This applies to UK and overseas practices.
- Please send a copy of RCVS approval documentation showing the Practice's RCVS Training Practice Number and latest review report. If the Practice does not have a copy of the review report, we can request this from the Practice's Primary Centre.

TP Number

As allocated by the RCVS. Please note this is different from the Practice RCVS Registration Number.

Number of Hours worked per week at a TP

- **Level 3 Diploma Students** must complete a minimum of 1800 hours at an Equine Training Practice over the duration of the course (excluding annual and sick leave). Course duration is normally 3 years depending on start date and examination dates.
- **Top Up students** - There is no minimum hours requirement for the Top Up programme as students will have already completed the required number of hours for RCVS registration. Therefore a placement within a Training Practice is only required for completion of the Nursing Progress Log (NPL) and to work with the cases required for the case study based summative work assignments.

If in a small animal TP or if you are not currently working in Practice, you may enrol onto the equine top-up programme provided you have equine experience and are able to complete the Nursing Progress Log requirements within an equine TP.

Proposed Secondment Training Practice

If your training practice is an auxiliary training practice, secondment in an equine TP is necessary. You must have written agreement from the secondment practice that a clinical coach will be available to work through the NPL with you. TOCES will provide a copy of the required secondment memorandum of understanding on receipt of the enrolment information.

TP Primary Centre

Training and assessment practices must always be affiliated to an RCVS approved Primary Centre who carry out your training practice approval visits. In most cases a Primary Centre is an RCVS approved college. If the primary centre is not TOCES, please provide a contact name, address, phone number and email address.

If not currently an approved Training Practice, is approval required to be completed by TOCES?

- Applications for training and assessment practice approval can be made to TOCES and TOCES can act as Primary Centre. We will visit your practice, as a prospective TP, in order to verify the resources available and offer initial guidance regarding veterinary nurse training. Your practice will be viewed by TOCES solely in relation to veterinary nurse training and assessment arrangements and the facilities available in support of this.
- Further information about becoming a TP can be obtained by contacting TOCES and/or visiting <http://awardingbody.rcvs.org.uk/employers/how-to-become-a-training-practice/>
- Practices that do not quite meet the TP criteria may be eligible to become an aTP and work with TOCES and other TPs to provide the necessary training.
