

Das Galeo C ist ein High Performance Line Array für die Großbeschallung mit vielen innovativen, akustischen und mechanischen Detaillösungen. Das 2 x 8" / 1,4" System wird 2-Wege aktiv betrieben. Das Galeo C ist ein unauffälliges Beschallungssystem für die hochwertige Festinstallation und den anspruchsvollen Tourbetrieb. Durch einfachen Austausch der AMR- Hornhälften kann zwischen einem 70° oder 100° horizontalem Abstrahlwinkel gewählt werden. Mit einem maximalen Splaywinkel von 14° kann bereits mit wenigen Elementen eine starke Krümmung der Zeile erreicht werden. Die innovativ integrierte Flugmechanik erleichtert das Curving entscheidend, da es erst im geflogenen Zustand eingestellt werden muss.
