Important information!

GENDEC required at Munich airport

As of **1st February 2020** all crew members – irrespective of their nationality – must present a valid General Declaration (GENDEC) or airport ID when entering the security area of the Munich airport.

The previously issued crew cards are not valid anymore.

Furthermore, please note that crews will have to pass through a separate entrance and will not be allowed to enter the security area together with the passengers. This entrance is approximately 50 m from the passenger entrance. Of course, we will stay with your passengers until you can meet them again on the other side.

It is possible to fill in the declaration on site, however, we highly recommend you send the GENDEC in advance to mmgat@munich-airport.de, gat@munich-airport.de and masops@germanaviation.com.

These changes will take effect on Saturday, 1st February 2020. The Munich airport authorities reserve the right to change these procedures at short notice. For further information or to receive a copy of the GENDEC form, please contact MAS Munich Aviation Service GmbH.
