

Insurity Clients: Are you ready for a "Game Changing" conference?

Connected 2020 | Dallas, TX | April 27-29, 2020

Connected 2020: Changing the Game

Over 30 years ago, Insurity was an information systems pioneer and industry thought leader, and today, Insurity continues its tradition of changing the game, as we help our clients navigate their modern-day digital journeys. Over the past year, we've seen significant change in the competitive landscape, in policyholders' demands and expectations, and in the maturity of data and predictive analytics as an integral, core component of an insurer's digital solution suite.

At Connected 2020, our annual client conference, we will hear from some of the industry's leading analysts as well as Insurity executives, sharing the latest trends in the industry and actionable insights, strategies, and best practices so that you can change the game for your customers. Our product updates and solution workshops will ensure that you're well-equipped to translate your plans into action and to realize the greatest value from your Insurity solutions - both for your business and for your policyholders.

In addition to a full agenda of compelling content and Texas-style evening events, we are incredibly proud to be joined by three-time Super Bowl champion and Pro Football Hall of Famer—not to mention Dancing with the Stars champion, author, and entrepreneur—**Emmitt Smith**, who will be presenting our Connected 2020 keynote.

Industry Thought Leadership

Just released! Check out Insurity's brand new eBook, [How Insurers Can Take Advantage of the Cloud to Compete and Thrive in a Digital-First World](#).

A must-read from the industry's leader in cloud computing.

Insurity's Kirstin Marr shares her insights as a guest speaker in Chisel AI's latest podcast, "[The Insurance Talent Crisis: Can AI Help?](#)". As a founding member of the Insurance Careers Movement, Kirstin speaks about the looming talent crisis in the insurance industry, the link between Insuretech and attracting new talent, and what insurance has to offer millennials and post-millennials.

New eBook now available! Digital innovation is more important than ever as customers needs change, competition increases, and distribution channels evolve. Insurity's new eBook, "[Digital Innovation: The Cornerstone of Sustainable Growth in Insurance](#)", discusses the tools and strategies you'll need to succeed!
