

Empowering

The local community with knowledge and resources through a partnership program

Reducing poverty

By securing basic needs (clean, water, hygiene, healthcare)

Sustainable future

Through literacy, primary education, agricultural and vocational training programmes

Our core mission is:

- (1) to empower the local under privileged community with knowledge and resources,
- (2) to reduce poverty by securing basic needs (hygiene, clean water, latrines and well distribution, basic healthcare, nutritional programs for vitamin intake through the use the incredible array of local fruits and vegetables, training of a vet per village to vaccinate all animals), and
- (3) to provide opportunities for a sustainable and independent future through literacy, primary education, agricultural and vocational training programmes.
