EXTERNAL DECKING JOISTS TREATED TO UC4

Arbor Forest Products is pleased to launch its range of responsibly sourced, PEFC certified, external decking joists treated to UC4, for use in ground contact.

For wood in permanent ground or fresh water contact, or providing exterior structural support, Use Class 4 levels of protection **must** be achieved. Anything less and service life, structural safety and customer satisfaction will be compromised.

COMPLEMENTARY PRODUCTS

ENDCOAT

Arbor Forest Products offer an end grain preservative, which should be applied to any bored holes, notching or cross cut ends.

Handy 1 litre cans, sold in boxes of 10.

Trex® Protect™

Using TrexProtect Butyl Joist tape will complete the system and make the joist fixing surface waterproof.

Protects the top of the joist, rim joist and ledger board from developing rot and decay.

Butyl-based tape helps deck screw hold longer. Stronger than acrylic or asphalt-based tapes.

Seals deck fasteners and prevents moisture penetration.

Provides a non-skid surface making it safer during installation.

Available in the following sizes:

50mm wide
x 20m long roll

100mm wide
x 20m long roll

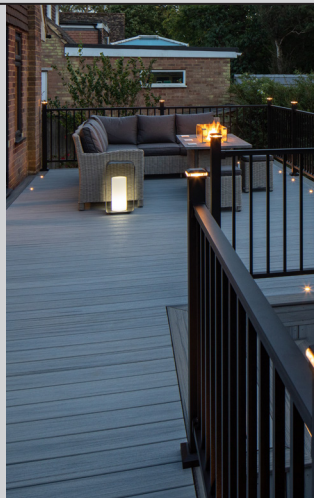

280mm wide
x 20m long roll
Available soon

TREX DECKING

The perfect complement for your sub-structure, Trex composite decking is long lasting and low-maintenance.

Available in a range of colours, and lighting, railing and other finishing options.

Ask for details.
