COMMUNITY ENGAGEMENT THE PARKSIDE SCHOOL

We really value the ongoing relationship we have with The Parkside School and the opportunity it gives us to help the children produce final pieces they can see in a public place.

Our enrichment programme helps enable students to unlock their potential and develop in confidence and resilience, equipping them with the skills and values required in our changing society.

The children we are working with at Parkside are 12 years of age and it gives them a real sense of pride to see their work on display. The quality of the pieces is fantastic, and we were really impressed with the exhibition.
