CARD PRINTERS

Altman Integrated Technologies can supply a wide range of card printers suitable for producing simple, single colour business cards or ID badges, up to full colour, dual sided cards with holographic lamination on plastic pvc cards. Our card printers are supplied complete with Windows 95/98/NT/2000 and XP printer drivers, some with Vista and all cables ready for connection to any software package.

Added features across the range include Hi/Lo-Co switchable mag-stripe card encoders as well as optional contact or contactless readers. Whatever the requirement and size of business, there is a card printer to suit the application. Examples are shown below but contact our technical specialist to review all the options available.

Single side printing

Dual side printing
