# A Colourful **FUTURA** is here

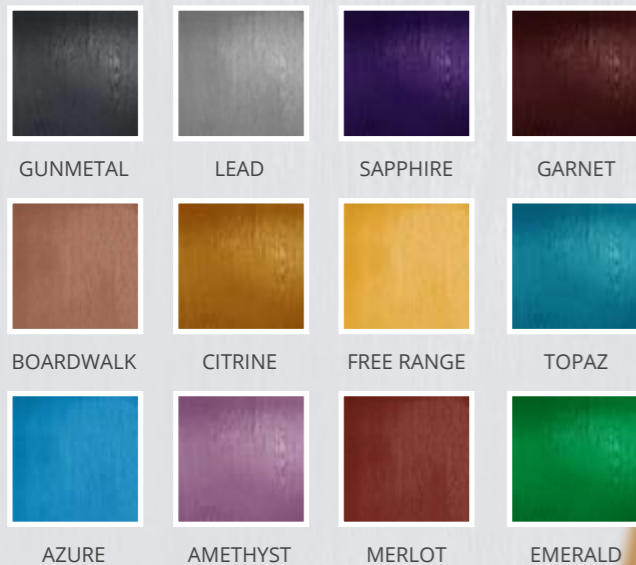

## DOOR & FRAME COLOURS

Seven standard colours catering for most preferences and aesthetic appeal.

## VIBRANT VARIATIONS

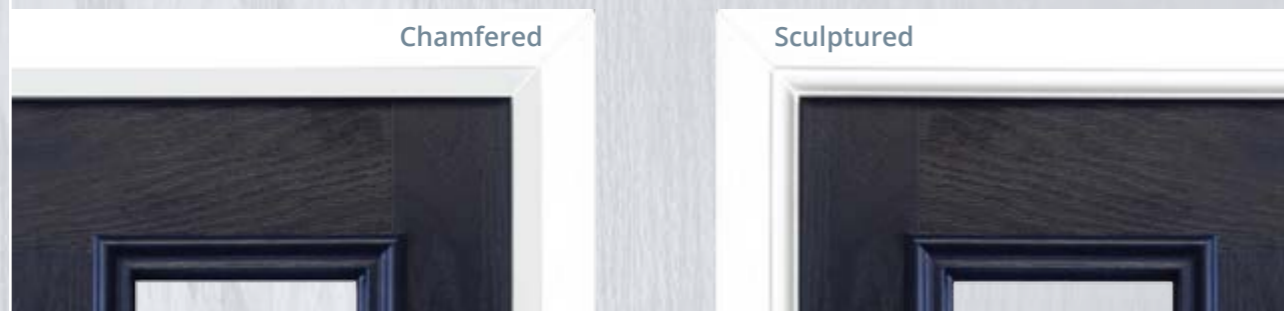

Got a particular colour in mind? Enhance your entrance with a choice of vibrant, modern door colours all of which can be supplied with colour matched frames and coloured edge banding.

COLOUR  
**BOND**  
SERVICE

## CHOICE OF FRAME PROFILE

**Complete the look.** Select from either a Chamfered or Sculptured frame profile to compliment existing windows & doors.

Hallmark's **ELITE MODERN** Collection of doors are fitted with **WINKHAUS** lock mechanisms as standard. Depending on individual needs, you can choose from the available **lock options** shown below.

## Designed **SECURE**

The **HERITAGE** multi-point locking system has a **slam-shut** operation whereby the lock keep will automatically engage once the door is closed. A key is then required to gain entry from the outside.

## HERITAGE LOCK

The key cylinder is positioned 3/4 of the way up the door - similar to traditional period doors.

From the outside the lock is key operated with a chrome or gold ring pull plate (a small brushed stainless escutcheon can be used if fixed handles are fitted) and from the inside the door is opened by an internal thumb turn mechanism.

## AV2 LOCK

The **AV2** is similar to the Heritage lock except that the cylinder is positioned at mid-rail height.

The **AV2** is also a multi-point locking system with a slam-shut operation and similarly from the inside and outside the lock is key operated. The AV2 lock is best suited where traditional lever/lever or lever/pad handles are preferred.

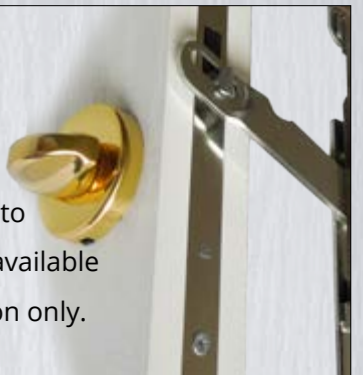

## KEYWIND LOCK

A multi-point lock with the cylinder positioned at mid-rail height. The lock is operated from the inside and outside with a key-wind operation.

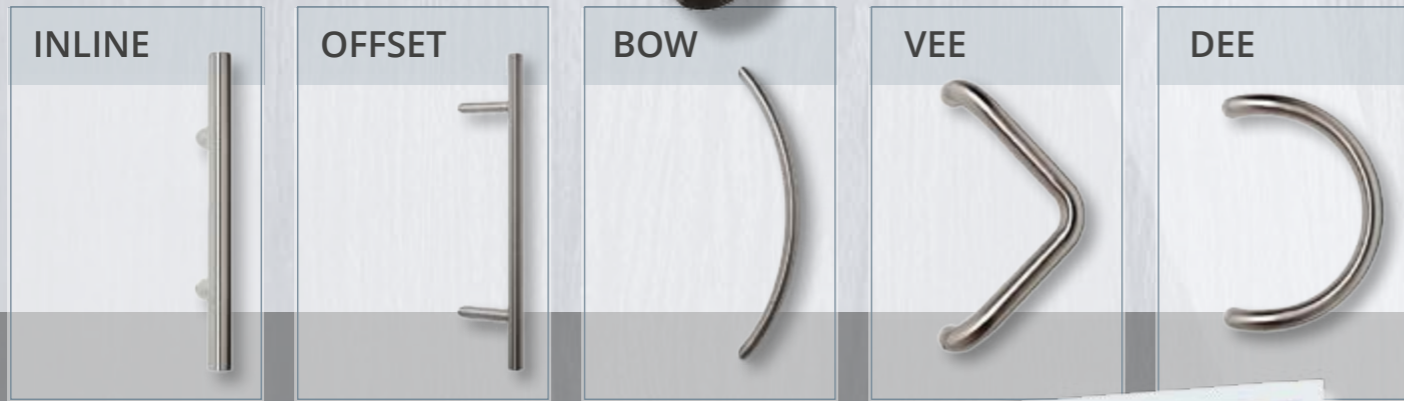

## ENTRY GUARD

This integral guard bar offers a higher security level compared to a traditional door chain and is available with our lever handle lock option only.

# Contemporary **BAR** Handles

In addition to our more traditional lever handle shown opposite, the **ELITE MODERN Collection** introduces **Brushed Stainless Steel Bar Handles** designed to enhance the look of the modern home and create a stunning, contemporary entrance.

Inline and offset bar handles are available in 400mm, 600mm, 800mm, 1000mm, 1200mm, 1400mm and 1600mm handle heights.

## PAS 24

The **BS PAS 24 Standard** is your assurance that our composite doors have passed a rigorous testing process to certify them as intruder proof.

The **BS PAS 23-1 Standard** tests the performance requirements on our composite doors to the required level of wind proofing and water tightness.

## PAS 23-1

# Stainless Steel **FURNITURE**

The brushed stainless steel door furniture collection includes matching letterplates, door letters and numbers, contemporary style ingot knocker and more traditional style Heritage door knob.

# Ultimate **THERMAL** Efficiency

Thanks to a high performance insulating core, the **ELITE MODERN Collection** helps you keep the warmth in and cold and noise out.

These days, energy efficiency is important to everyone. We all want to reduce our fuel bills and protect our planet's future.

Once installed correctly our doors far exceed the requirements of Approved Document L of the Building Regulations.
