LINCOLN PLUMBING AND HEATING STATEMENT ON COVID 19 OUTBREAK

We are continuously monitoring the Government's updates and guidance regarding COVID-19 and are also taking precautionary steps to protect the health of our staff and visitors.

We have shared with our employees the preventative measures they need to take as guided by NHS and Government – frequent thorough handwashing, proper use and disposal of tissues etc.

We are continuously reviewing our Business Continuity Plan that include the possibility of dealing with a pandemic.

We will continue to update these plans as necessary as we learn more about the COVID-19 situation, in order to meet our service obligations to our customers as well as looking after the health and safety of our staff.

We are continuing to work closely with our critical suppliers and sub-contractors to ensure they are taking appropriate action and can continue to provide goods and services.

Further information
