

Grip Tape

Idler Rollers on Newspaper, Web and other Roll Fed Press Applications

Grip Tape is a non-skid rubber textured surface with an anti-marking top coating. Grip Tape is durable and helps provide traction on Idler Rollers of light weight and sensitive substrates while eliminating marking, wrinkling and tracking issues as well as reducing cleaning time. Grip Tape has a pressure sensitive backing allowing for easy installation and removal.

Features:

Non-Skid Surface

- The rubber textured surface provides grip “traction” and is pliable

Easy to Clean

- Grip Tape can be washed with a water miscible solvent

Easy Installation and Removal

- The pressure sensitive backing allows easy installation and easy removal

Applications:

Commercial Web & Newspaper Presses

- Idler Bars, Compensator Rollers
