Charlie's Soap Laundry

- Powder
- Liquid
- Packets

The secret to a happy life with clean clothes while doing your share for Mother Earth shouldn't be complicated. Use our concentrated Laundry detergent. It deep cleans your laundry for only pennies per wash (one ounce per large load for the Liquid or 1 tbsp for the Powder or 1 Packet), as it removes trapped odors and stains. Hypoallergenic, non-toxic, safer for the environment. Plus, it removes residues from your previous detergent. No need for fabric softener, either. Septic safe.

Laundry Liquid

Size:	4 oz, 4 loads	Case GTIN:	50757072211012

Charlie's Soap Cleaning

Charlie's Soap cleans everything from false teeth to diesel engines and everything in between.

Indoor/Outdoor Surface Cleaner Concentrate

Sometimes shouting is necessary, but it perturbs poor Charlie. That's why he invented Indoor/Outdoor Surface Cleaner. It quietly handles heavy-duty cleaning jobs inside the house and out. Spray it on, give it a little scrub, and rinse it off. Originally formulated to clean greasy textile looms, it gently releases grease and grime. No gloves necessary! Because it is non-toxic and biodegradable, it keeps the environment and your family safer. Use it for decks, cars, boats, bikes, driveways, siding, walls, pets, hands, engines, furniture, grills, mildew, pine sap and much more.

Kitchen & Bath Household Cleaner

Why buy a dozen different jugs of cleaning solutions when Charlie's Soap Kitchen & Bath Household Cleaner can handle just about any grime in your home. Tough yet gentle, spray it on, wipe off all washable surfaces, including granite countertops, stovetops, ovens, hardwood floors, carpets, tubs, showers, walls, tile, stonework, sinks, toilets and more. It gently releases grease and grime. No gloves are necessary: zero abrasives, zero lye, zero phosphates, zero bleach, zero dyes, zero perfume. Charlie says it is safer for the environment because, like all his products, it is non-toxic and biodegradable.

Charlie's Soap Laundry Support

Sometimes your laundry routine needs a little extra help.

Laundry Pre-Spray

Sticky stains on your good clothes make you madder than a hound dog with a hangover. Our Laundry Pre-Spray pre-wash stain treatment is your remedy. One spray takes care of just about any stain.   Its gentle formula works overnight on tough stains on any fabric without fading colors. The bottle is light and easy to handle with one hand. Like all our products, it is non-toxic and biodegradable to keep the environment and your family safer.

Booster & Hard Water Treatment

Some wander this Earth seeking wisdom. A lot of folks Charlie talks with are looking to beat hard water. Our Booster is a hard-water treatment made from a non-toxic biodegradable phosphate that brings out the best of Charlie's Soap without leaving any residues on your clothes. It controls minerals in your wash water with just 1/2 tablespoon per load. Your septic system and washing machine will be safe, too, because Booster is completely soluble.

Oxygen Bleach

Chlorine bleach is harsh.   It works – at the price of damaging certain fabrics.   Charlie's Soap Oxygen Bleach is different.   It is formulated from washing soda and hydrogen peroxide, which whitens whites and tackles stains and odors while being safer for the environment, including your septic tank. As little as two tablespoons per load will do the trick. It is color safe, but be sure to follow garment care instructions.
